

**Commonwealth Government COVID-19 Response Inquiry**  
**Submission – Nicholas Marlow, [REDACTED]**  
**12/12/2023**

I am an Australian citizen [REDACTED] I first became aware of the United Nations Agenda 21 agreement back in 2008 and have watched with concern over the years since as our governments went about implementing the Agenda 21/Agenda 2030 and the “Sustainable Development Goals” in a way that appeared to be hugely detrimental to our country and its people, and appeared to be based largely on political and scientific fraud. The global roll-out of the COVID-19 attack massively accelerated the progress of this, and suddenly explained many of the questions I had, specifically relating to the Sustainable Population targets being proposed by these foreign organisations including the UN and the World Economic Forum.

By March 2020, the evidence was clear: Doctors, nurses, statisticians, scientists etc throughout the world were speaking out and being censored, sacked and even killed. The virus was known to be of a similar level of threat to a typical flu, and there was several safe, cheap, off-patent drugs, with a long history of safe use in humans, which were remarkably effective at preventing and treating COVID-19. These included, in particular, Hydroxychloroquine and Ivermectin/Zinc. Various world leading experts were censored and faced character assassination for promoting these drugs. Ivermectin was fraudulently dismissed as “just a horse dewormer” despite 50+ years of extensive global use as a human anti-parasitic with an impeccable safety record. Nobel Prize winner [REDACTED] the inventor of PCR, stated in 2019 that PCR was not suitable for use as a diagnostic test, and that it could be used to find just about anything in anyone. Yet PCR was used as the diagnostic test for COVID-19, with excessively high amplification cycles, and the resulting massive amount of false positives allowed for the deliberate creation of a fake global pandemic.

We then saw the introduction of [REDACTED] into our hospitals, with the official COVID protocol requiring people to go home and wait until they were gravely ill, before coming back to hospital to receive the drug Remdesivir, a US Department of Defence/National Institutes of Health [REDACTED] [REDACTED] which causes kidney failure. Then the patients were put onto ventilators, which finished the job of [REDACTED] them. These deaths were put down as caused by COVID-19, adding to the numbers to support the fake pandemic. Many doctors and nurses throughout the world spoke out about this, and were censored and suspended, including here in Australia.

Meanwhile, the governments and media worldwide were pushing the logic-defying narrative that the only way out of the situation was a “vaccine” which allegedly hadn’t been invented yet. [REDACTED]

[REDACTED] Within about a year, this was happening, and immediately the deaths started, and were covered up.

[REDACTED] From

[REDACTED] Since this time, I would have had at least 1 report made to myself per week, many just from our local rural community. People were scared to talk, for fear of being called a conspiracy theorist, or other such rubbish. They only told people like me because they knew we would listen. [REDACTED]

In July 2022, after a meeting at Echuca, myself and a few others formed an organisation called Billboard Battalion, with the aim of using alternative techniques to beat the censorship and deliver the true and accurate information to a public which desperately needed to hear it. We have had remarkable success to date, and are continuing our efforts.

As such, the cabinets of our Federal and State Governments, many members of the opposition, many bureaucrats, as well as many scientists, doctors, nurses and members of the media, must be arrested, and must stand trial under military court martials, charged with capital crimes, including crimes against humanity, [REDACTED] [REDACTED]  
[REDACTED]

The evidence of this global [REDACTED] program has been well documented by the Corona Investigative Committee as a result of their Grand Jury. World renowned trial lawyer [REDACTED] [REDACTED] led this Grand Jury, and their findings can be read at <https://stopworldcontrol.com/jury/> - Sadly [REDACTED] has since been arrested and detained by the German Government in an effort to silence him.

The Australian government must immediately withdraw from The United Nations, The World Economic Forum, The World Health Organisation, and all treaties, agreements and other arrangements made under them. All domestic laws created as a result of any such treaties or agreements must be nullified and repealed. This will include anything to do with health or pandemic response, and also other seemingly unrelated Acts, such as the Commonwealth Water Act (2007) which forms a part of this global attack by facilitating the removal of critical irrigation water from food production.

The Australian government must publicly acknowledge, using all possible media and facilities, that the entire COVID-19 operation is part of a global [REDACTED] program, and that many people within the Australian Government, medical system and media have willingly engaged in [REDACTED] [REDACTED] The media must face loss of their broadcasting licences etc if they do not fully and freely promote this information, including acknowledging their significant part in the attack.

The Australian government must also publicly demand the trial and [REDACTED] of the leadership of the foreign entities that have conducted this attack.

Once we have our government back under domestic control by the We The People, the Commonwealth Government must immediately, throw every possible resource towards scientific efforts to find a way of saving the lives of the remaining people who have taken these poison COVID injections as a matter of absolute urgency.
