

**Submission to the COVID-19 Response Inquiry**  
*To the Members of the Independent Panel,*

**I urge Members of the Independent Panel to learn about the evident harm caused by medical interventions and restrictions imposed in response to the COVID pandemic provided in this submission and the links I'm submitting.**

Our own personal and national interest must guide all future health responses. Australia should not fall sway to the WHO. Funding to the WHO should discontinue. It was bad that the Australia's last pandemic response plan founded on 100 years of pandemic experience tailored to the Australian context was thrown out in 2020 as explained here:

**The result from the COVID pandemic response was excess deaths.** There is evidence in the NZ data that "In this LARGE whole population dataset, mortality skyrockets for 6 months or more after the shot. It does not do this in any large population which has not been given COVID shots."( [https://kirschsubstack.com/p/kim-dotcom-discusses-my-new-zealand?utm\\_source=profile&utm\\_medium=reader2](https://kirschsubstack.com/p/kim-dotcom-discusses-my-new-zealand?utm_source=profile&utm_medium=reader2) ) Therefore take vaccinations off the market. There has never been any evidence that vaccines stop infection or spread of any virus. Nor is there any evidence that vaccines of any description reduce hospitalization or death. Vaccines have been pulled for far less than this as explained here: <https://news.rebekahbarnett.com.au/p/west-australian-government-finally>

We have seen mortality rise after EACH dose. THIS IS UNPRECEDENTED. Please read: [https://kirschsubstack.com/p/my-email-conversation-with-sarah?utm\\_source=profile&utm\\_medium=reader2](https://kirschsubstack.com/p/my-email-conversation-with-sarah?utm_source=profile&utm_medium=reader2)

The pandemic agencies should be overhauled so that they operate in the interests of the Australian people not globalist profiteers. Nutritional medicine and nutritional immunology should be recommended in future pandemic responses as outlined here [REDACTED]

Russel Broadbent and other Senators have received numerous notifications from constituents that have been vaccine injured. The US government has tacitly admitted that the COVID vaccine has damaged the hearts of many American pilots and should therefore be taken off the market. Please read: <https://kirschsubstack.com/p/the-faa-has-very-quietly-tacitly> The side effects of COVID vaccines are evident and no pharmaceutical intervention should be marketed or mandated in Australia without proof the product will do what it is marketed as doing.

In future cost risk analysis should be done before intervening in the Australia's economy. In any future pandemic response I recommend to not permit lockdowns and restrictions on movement because they violate human freedom, rights and dignity in violation of the Nuremberg code.

I advocate for these policy recommendations:  
<https://amps.redunion.com.au/policy-advocacy>

Be aware that Australians have not agreed to any of the policies of the COVID pandemic response. For those making decisions about other people's health and bodies other than their own, there will be consequences. Pharmaceutical companies forced a commercial agreement on the people without plebiscite, without mandate (mandate comes from latin meaning "We all agree"). We did not all agree and we deserve a comprehensive COVID inquiry that looks into all the aspects of how the pandemic was handled.

Giving \$8 billion to big pharma for poorly tested gene-vaccines, without industry standard testing requirements being met in deals that might indicate a conflict of interest is one procedural inadequacy that should be investigated and not be done again. The Halton review [REDACTED] links are here; <https://lettersfromaustralia.substack.com/p/australia-has-no-idea-how-many-people>

<https://amps.redunion.com.au/too-many-dead>

<https://lettersfromaustralia.substack.com/p/defibrillators-popping-up-along-with>

<https://lettersfromaustralia.substack.com/p/australian-cardiologist-warns-of>

Many people were discriminated against for not being injected. The government failed to introduce anti-discrimination legislation like the following bills that failed to pass:

[https://www.aph.gov.au/Parliamentary\\_Business/Committees/Senate/Education\\_and\\_Employment/VaccineDiscrimination](https://www.aph.gov.au/Parliamentary_Business/Committees/Senate/Education_and_Employment/VaccineDiscrimination)

There is room for improvement with regard to any future pandemic responses. Please attend to these ten matters.
