Background

The government and its appointees have acted in bad faith, been caught in lies and deceptive behaviour. Claims made throughout pandemic have been exposed as fraud. The terms of reference should be constructed in a manner that will allow vigilant community groups access to all materials and prepare submissions to refute the raft of cover ups planned as submissions for this Royal Commission.

The terms of reference below are specifically designed to allow “Selected” representatives from “Selected” **diversity** groups to be the only significant submission. My submission specifically addresses this attempted cover up.

Real people had a wrecking ball through their lives this Royal Commission and the terms of reference should scope and be structured to allow the systematically censored and persecuted individuals and groups to have a clear voice and rebuttal of doctored evidence by government and their beneficial private partners. Babies died, old people died, young people died and a great many people harmed as a consequence of informed actions. International groups have analysed both super national and national participants this evidence forms the basis of grievance

Scope

The Inquiry will review the Commonwealth Government’s response to the COVID-19 pandemic. Scope to include access to all emails, phone texts, slack or other electronic communication platforms, recordings of zoom or other video conferencing recordings.

- Scope to include access to all emails, phone texts, slack or other electronic communication platforms, recordings of zoom or other video conferencing recordings.

Each of the scoping areas to receive community submission on harm. Such submissions to be collated and presented as a matrix of misery. The scope of each part to include the coercive measures used by government and their private partners

Independent Panel

The Prime Minister has appointed an Independent Panel of three eminent people to conduct the Inquiry.

The panel should only include people from outside any previous government involvement. Diversity should be exactly as per the Australian demographics.

Taskforce

A Taskforce within the Department of the Prime Minister and Cabinet will support the Independent Panel.

The taskforce should only be from outside government. Such community taskforce has precedent in Canada with the NATIONAL CITIZEN'S INQUIRY of Canada. It delivered an unbiased and excellent set of findings.

Public consultation

- Members of the public. Any and all should have the same and equal standing and opportunity. Given the same time and exactly the same consideration. Anything else would be a whitewash.
