

To whom it may concern,

In the interests of transparency and full accountability and restoring public trust, please ensure the Commission conducts a thorough and proper investigation into the following:

- Vaccine procurement and contracts - full transparency is required as to the process, the decision makers and the publishing of all contracts
- Financial incentive tracking in regards to vaccine provider selection and procurement
- The role of pharmaceutical lobbyists
- PCR test effectiveness
- Mask mandates and mask effectiveness
- Lock downs and damage caused by lock downs
- Vaccine mandates
- Vaccine injuries
- Excess deaths after vaccine rollout
- The role of the media in creating divisions between Australians with denigrating language (anti-vaxxer etc)
- Suppression of alternative options and early treatments
- Censorship of alternative points of view, lack of open discussion and debate
- Official misinformation regarding the ability of vaccine effectiveness i.e. to block transmission
- Censorship of doctors
- The role of AHPRA and ATAGI in censorship of medical practitioners
- The role of WHO in influencing or setting policies in Australia

The public has a right to transparency on these issues in order to help restore trust in our institutions.

Thank you.
