

To whom it may concern.

The Royal Commission is needed to investigate the following Covid/vaccine related issues:

- * Elaborate disinformation/misinformation campaigns over Covid 19 “pandemic” instigated by government,
- * Censorship of true information that was inconvenient to government policy,
- * Illegal lock downs,
- * Forced mask mandates,
- * Censorship of true Covid/vaccine related information,
- * Vaccine mandates,
- * Exceedingly high death rates after the forced Australia wide vaccination.

We have been administered two doses mainly of the experimental gene therapy masquerading as a ‘vaccine’.

A great tragedy has been inflicted on this country in the favour and profit of minority.

This must be investigated!

Yours faithfully,
