

To whom it may concern,

I am writing today for an appeal to a royal commission enquiry on the many failed aspects of the Covid-19 pandemic. As well as being personally affected by the closure of a government facility which was a 'mother and baby unit' when my baby was [REDACTED] weeks old. I was denied access to the facility after a [REDACTED] week stay and told to either go home or travel a further [REDACTED] hours to another facility. This was [REDACTED].

I'm also writing for the enquiry to the corrupt vaccine procurement and secret contracts; the mask mandates which are still ongoing in Victorian hospitals and places of health care; Victorian lock downs; vaccine mandates, official misinformation and lies in the media regarding the ability of vaccines to block transmission, vaccine injuries which I personally know many many people who suffered from this and it is well evidenced to have been quite a lot; media censorship, silencing of doctors who I personally knew matched in the Victorian marches, the role of AHPRA and ATAGI in censorship and oppression of doctors, and the poor treatment of victims.

You need to hold those accountable for what was done to the general population and I'll have you know God knows all so hiding won't get you very far. Come clean, fess us and do the right things.

Kind regards,

[REDACTED]
