

COVID Inquiry Resonse

This inquiry has the responsibility to initiate a full and honest investigation into the following: 1. Recommend the creation of a royal Commission to fully investigate the federal and state government's response to COVID-19 and to call witnesses to highlight the devastating impact on the health of the vaccine injured. 2. The corruption of the federal government's vaccine acquisitions and secret contracts, including the manufacturers immunity from prosecution. 3. The impact of the imposition of illegal mandates and restrictions of travel between states initiated by state governments. 4. The impact of the side effects of the vaccines (As per NSW weekly covid health reports), including the vaccinated subjects showing increased transmission of COVID, increased hospitalization and admissions to ICU, and increased number of excess deaths post administration of the vaccines. 5. The official misinformation provided by Health ministers and premiers regarding the vaccine being "Safe and effective" despite the [REDACTED] documentation proving there was no long term safety data to provide evidence to back up their claim. 5. The silencing and censorship of Doctors and medical experts by APHRA and ATAGI.

This investigation has the responsibility to provide a fully transparent an honest investigation into the issue highlighted above. Failure to do so will result in a total loss of confidence in this inquiry that will reflect in the outcomes of subsequent state and federal elections.
