

Terms of Reference for the Commonwealth Government COVID-19 Response Inquiry

- *Governance including the role of the Commonwealth Government, responsibilities of state and territory governments, national governance mechanisms (such as National Cabinet, the National Coordination Mechanism and the Australian Health Protection Principal Committee) and advisory bodies supporting responses to COVID-19*

- It is now apparent that the Commonwealth Government along with the State & Territories governments and associated Cabinets, Committees and Advisory Bodies were guided by others ie the World Health Organisation (WHO), the Centres for Disease Control & Prevention (CDC in USA) , Big Pharma (Pfizer, Johnson & Johnson + others ¹) and the World Economic Forum which are run by billionaires who seem to want a path of influence and control.
- National Cabinet was set up illegally and ran unconstitutionally.
 - Why did governments came to conclusions to believe the ‘ main stream’ propaganda spread especially by the WHO , Dr Anthony Fauci -Former Chief Medical Advisor to the President of USA and so many more before doing some serious research into what they called COVID 19.
- Money, Power and Control are the key elements that shine as the overall strategy to work towards a ‘globally managed world’ - (a little like what [REDACTED] [REDACTED]) ²
- Investigation into the actions of China and Wuhan should have been the first place of research back in 2019 (perhaps now only emerging).
- Research of the Pfizer documents by TGA should have occurred before the approval of ‘vaccines. It took a court case to get Pfizer to release the information- is that no a ‘red flag’?
- Government personal took the opportunity to press with power over the Australian people with little regard to our Constitutional Rights and Human rights including freedom of speech, Opinion, Religion, Association and Movement.
- As a person with critical thinking and NOT just believer the ‘MAIN STREAM MEDIA’– it was very clear early in 2020 that this was not about a ‘spreading Virus news’.
- What agreement did the Australian Government sign with the Pharmaceutical companies and sign off giving indemnity to the Big Pharma’s and then the Government set up their own responsibility of legal liability over the Vaccine Injured with limited Risk Assessment?
 - Was our Australian Government paid to accept and purchase 69 million vaccines for 25 million people? (Untested for the mandatory period of 5-6years)
 - What Incentives or Tax Breaks were offered & paid to Main Stream Media to promote home the message on COVID 19 Vaccines – Safe and Effective
 - Where was the government transparency?

² [https://www.britannica.com/biography/\[REDACTED\]](https://www.britannica.com/biography/[REDACTED])

- The testing of people not sick using PCR and RAT tests was unprecedented and evidence shows these were never accurate.³
- The Australian Health Practitioner Regulation Agency (AHPRA) statement issued on 9 March 2021 to all registered medical professionals, restricted their ability to operate under their medical code of conduct.⁴
- *Key health response measures (for example across COVID-19 vaccinations and treatments, key medical supplies such as personal protective equipment, quarantine facilities, and public health messaging).*
- With regard to the health responses to the so called 'Coronavirus – COVID 19'
 - No minimum of 5- 15 years of Vaccine testing before it is made available to the public.^{5 6}
 - No response to people dying or injuries from the Vaccines – and no withdrawal of the vaccines from the market with knowledge of adverse events.
 - Mandating COVID 19 vaccines – first the 2 and then then the Boosters
 - Australian's were made to believe they could make their own choice, make own decisions on their health, but were not provided full disclosure of the drug to allow them to give proper consent.
- Withdrawal of Ivermectin from pharmaceutical shelves as an identified treatment for COVID 19 - a drug which was able to reduce the severity of the Coronavirus in many(as proved in Indian counties and those who managed to procure the drug (Safe and Effective since 1987) – then withdrawn - any person would question that action as withdrawal of possible assisting drug without any explanation by sources !!!!!
- Numerous Scientific reports show that mask wearing was ineffective to the spread of the virus, especially homemade ones.
- Public Health Messaging = Repeated Messaging of 'lies' and people will eventually believe it.⁷
 - Main Stream media did not let up (I believe they were paid) and the constant daily figures reported by each States Chief Health Minister
 - No debate was allowed by any main stream media sources - luckily some stood out and questioned, debated and allowed people to provide an alternative opinion to the governments one. Thank you Sky News, Ben Fordham and some our Senators now questioning the events.
- Quarantine Issues: Should never have happened – solution would have been to request / ask people to remain isolated in their homes until all were well again. People should have been transported in special vehicles from cruise ships or other places to their homes and assisted with home food deliveries and pharmaceutical requirements.

⁷

- Special Quarantine Facilities have been a burden on tax paying Australians & continue to be a daily cost for ongoing management for facilities now mostly empty.
- The best medicine for any human with medical issues is Vitamin C, Vitamin D (sun), Exercise (raise endorphins), fresh air and good fresh food and being in the company of caring individuals.
- So Lock Downs / Quarantines - locking people up in homes, hotels, ships, etc did not allow for any of the above
- An new medical pandemic has now emerged with a huge increase of individual with 'mental health problems'; including children locked out of schools, parent locked up with families trying to work and teach; businesses going bust, financial stresses beyond imagination and isolation of people from family in crisis situations (hospitals, dying, funerals, grieving, general family support etc)
- *Broader health supports for people impacted by COVID-19 and/or lockdowns (for example mental health and suicide prevention supports, and access to screening and other preventive health measures).*
 - Too late - the government have completely caused a national disaster with the government actions
 - Firstly, the focus should be on people who have been injured from COVID 19 vaccines - the list is long and length (see Jab Injuries Australia information – book published) & the original lists from the TGA Vaccine Injuries.
 - Secondly, the investigation into the deaths of those from COVID 19 vaccines. The Therapeutics Goods Administration (TGA) made it difficult for doctors to record injuries on the web site, investigations by some found one could record it themselves but so many did not know – so records I watched in early days as the data base got bigger was horrifying.
 - No alternative health information was forthcoming at any time for people – just the message rammed home that one had to take the vaccine = It was SAFE & EFFECTIVE!!!!?? Well this message is now proved to be completely incorrect.
- *International policies to support Australians at home and abroad (including with regard to international border closures, and securing vaccine supply deals with international partners for domestic use in Australia).*
 - Do not allow outside 'partners' or WHO to have any control over what Australians choose – no outside governance should be allowed.
 - Vaccine supplies - well lets focus on ensuring the vaccines we choose to let into our country are thoroughly tested, trialled for the mandatory 5-15 years to ensure they are 'Safe and Effective'.
- *Support for industry and businesses (for example responding to supply chain and transport issues, addressing labour shortages, and support for specific industries).*
 - People are continually sick from vaccines and boosters that have been taken and has caused severe staff shortages
 - Part of the labour shortages are clearly from people being mandated to take a drug (vaccine) that they did not want to and then being ostracised from their employment. Eg - Police force, Ambulance/ Paramedics , Nurses, and so many more.

- The persecuted 'Un-jabbed' Australians overall have survived the health issues so much better. Many of the reports advise it was not much more than a 'bad flu/ influenza' which does circulate most years.
- The best support for industry and businesses is NEVER ALLOW this to happen again.
 - I do not believe an increase in immigration is the answer
 - I believe a stricter control on social security needs to be looked at and people have to be firmly encouraged to seek employment.
- *Financial support for individuals (including income support payments).*
 - Jab Injury individuals need to be provided with support and compensation. The current process is not meeting the needs of those in terrible situations and it was through no fault of their own – just the 'Mandating process' that led these people down a path with no come back.
- Financial support to Jab Injury individuals with alternative health programs (Free) to allow body detoxing.
- *Community supports (across early childhood education and care, higher education, housing and homelessness measures, family and domestic violence measures in areas of Commonwealth Government responsibility).*
 - The creation of world turmoil with countries going into lockdowns, travel restricted, and the economy turned upside down for over 2 years, has caused such harm to people that the issues listed above have reached crisis levels.
 - Build communities and allow families to rebuild lives – provide a sense of safety, a place of belonging and a purpose in life.
- *Mechanisms to better target future responses to the needs of particular populations (including across genders, age groups, socio-economic status, geographic location, people with disability, First Nations peoples and communities and people from culturally and linguistically diverse communities).*
 - No 1: Proper Consent for people to allow them the decision on what they to put into their bodies. This is a 'human right'.
 - No 2: Never mandate a vaccine again called 'SAFE & EFFECTIVE' after only 1-2 years in production
 - No 3: Do the research on the Big Pharma, the Big Companies pushing the agenda, the Billionaires pushing the barrow and ensure our Australian government protects all the Australians in the this country.
 - No 4: Provide and allow debate on all subjects in Main Stream media (a source of information for many) and DO NOT use 'Repeated messaging' in a propaganda way.
