

A Royal Commission into the Government response to Covid 19 must proceed if the government legitimately wishes to review and learn from its mistakes

A destructive and hard-handed response was undertaken by the Federal and State governments to deal with the SARS-CoV-2 (COVid 19) outbreak. The government ignored its own preparedness plan and adopted totalitarian oppressive regulatory measures. "Two weeks to flatten the curve" developed into a full-blown fear campaign. Never in the history of health emergencies has only one approach been so heavily promoted. The government was not interested in allowing the science to be scrutinised and debated.

Highly respected senior medical doctors, epidemiologist and health professionals were silenced and threatened with disciplinary action by AHPRA if they dared to speak out against the government line. Alternate therapies were banned or removed from circulation (Ivermectin and Chloroquine).

The government interfered in the doctor/patient relationship. ATAGI and AHPRA's role.

Never ending lockdowns, excessive restrictions, mask mandates, coercion to take an experimental vaccine (gene therapy), a novel and unproven vaccine technology.

At no time was "health" promoted e.g Sunlight, Vitamin D, healthy diet and exercise etc.

The fear and coercion tactics and misinformation pushed by the Federal and State government, for an infection fatality rate of 0.15%-0.2% has had a dire impact on Australians. The vast majority were never at risk from COVid as Government claimed they were. (99.8% rate of full recovery for those under 70 with no serious co-morbidity). At most it was a bad flu. The annual flu virtually disappeared.

Death numbers were inflated e.g people dying of cancer but had tested positive with COVid was counted as a COVid death. (Dying with COVid not from COVid).

Asymptomatic spread was a blatant lie.

Families were torn apart. The most vulnerable, the sick, the elderly, the young were socially isolated. Children could not go to school or even play. People committed suicide due to fear instilled and lockdowns. Economies were crushed and businesses destroyed. People lost their jobs, their homes and some their families due to the mandates and harsh restrictions. Many were unable to bid their loved one's farewell.

PCR test used to diagnose positive infections was flawed and inaccurate (Cycle counts above 20-24). Most of our labs were using CT40 creating a 90% false positive result of "infectious" cases. The fear narrative pushed that 'cases' equated to active infections. Asymptomatic people were being quarantined.

Many of these Acts/Laws amendments pushed through with changes as government knew they were violating rights.

Experimental Gene Therapy – not vaccine was pushed onto the entire population. A novel and unproven therapy which even our Federal Health Minister described Australia's COVID19 vaccine roll out as being part of a global clinical trial.

The 'vaccine' was pushed on pregnant women, the elderly, the sick and most vulnerable not to mention our children. The vaccine efficacy and safety were unknown in all of these groups.

The vaccine companies' trial and study documentation and surveillance data post Injection from overseas revealed adverse health results linked to the vaccines. Those Medical doctors, researchers speaking out and trying to shed light on the "other science" were threatened by their own governing body and labelled "Conspiracy Theorists".

Real World Data on vaccine death and injury continues to be suppressed and ignored. Why?
