

The following points should be the absolute minimum to be conducted during a Full Royal Commission into the *Parliament of the Commonwealth of Australia* response to the 'Covid-19 pandemic'.

- Vaccine procurement- including lawful contracts of sale, premarket data on the absolute risk, across all age groups and cohorts.
- How Vaccines were assessed in Australia prior to release, to the Australian population.
- Deliberate failure to uphold Human rights and Freedoms, unjust coercion.
- Definitive and absolute proof of the necessity for mass public vaccination, this should be compared to historical pandemics and/or why other public health, off shelf medicines would not been effective.
- Definitive and absolute proof of the necessity of Mask-mandates and lockdowns, this should include the real-world effectiveness of masks at prevents viruses comparing the particle size medical masks can prevent compared to the typical virus particle size.
- The impacts Lockdowns were to have on general health (not including C-19), economics impacts, prior to their implementation and the risk-benefit analysis.
- The Government lead misinformation – including vaccine effectiveness, safety.
- Proof of Lawful Authority pursuant to *Commonwealth of Australia Constitution*.

- AHPRA's, TGA, OGTR, ATAGI and the lack of due diligence. How their surveillance on the vaccine performance, impacts, adverse events was monitored.
- Why were previous Pandemic-Influenza management plans abandoned or deemed to be ineffective.
