

Submission for the Covid Inquiry from the Office of the PM & Cabinet 2023

<https://www.pmc.gov.au/covid-19-response-inquiry/consultation>

We are in an urgent need of a Royal Commission investigation into:

- Covid 19 vaccine procurement and secret contracts
- Mask mandates
- Lock downs
- Vaccine mandates: Safe & Effective lie?
 - "No one will be safe until everyone is vaccinated." Pfizer admitted to [REDACTED] that they never tested if the jab stopped transmission. The vaccines didn't stop transmission.
 - Why were employees made redundant if they didn't take the not so effective vaccine which was evident very shortly after the vaccine roll out.
 - The government kept with the same message advertising on mainstream media: "Get vaccinated to protect others" but it was clear that wasn't the truth. People were made feel safe where they shouldn't have been safe.
 - Vaccinated & tested positive people were able to move around freely, yet they were passing the virus on. Again this was evident very early on, yet no changes were made.

- Vaccine injuries:

 -
- Excess death: Australia has a unique scenario regarding being able to pinpoint a direct correlation between no covid appearing in Australia from May 2021. During the same time (March 2021) the rollout of Covid 19 vaccines started with the goal to vaccinate all "willing" people by 2022.
 - The excess deaths started to rise in 2022 and continue to rise in 2023. See separate attachment: Excess mortality as a percentage above expected by jurisdiction 2020-23. Source: Source: Australian Bureau of Statistics, Measuring Australia's excess mortality during the COVID-19 pandemic until the first quarter 2023 19/07/2023
 - Never in history, have we had excess deaths after a pandemic. There are more people dying now than during the pandemic, even though 95% of the population got vaccinated. Safe & effective was the mantra given out by the government and mainstream media – a lie?
 - Spike in Turbo Cancers, Dementia, Strokes, Heart attacks, Myocarditis, Pericarditis, MND and others, after the Covid 19 vaccine roll out.

Excess mortality as a percentage above expected by jurisdiction, 2020-23

	2020	2021	2022	2023
Australia	-3.1	1.4	10.9	9.1
New South Wales	-4.1	0.1	10.7	8.6
Victoria	-0.9	3.4	13.2	12.0
Queensland	-4.3	0.8	10.1	7.8
South Australia	-3.2	0.5	9.2	8.9
Western Australia	-3.9	0.6	6.2	6.1
Tasmania	-3.6	5.8	13.6	17.3
Northern Territory	1.5	6.8	10.6	np
Australian Capital Territory	-4.3	-2.8	12.1	8.9

a. Data is provisional and subject to change.

b. Years are based on a sum of ISO weeks derived from the weekly modelling. There are 53 weeks in 2020. There are 52 weeks in 2021 and 2022. Excess mortality has been estimated for the first 12 weeks of 2023.

c. Deaths in 2023 are deaths that occurred by 26 March and were registered and received by the ABS by 31 May 2023.

- The percentage of dying people is much higher under the vaccinated people. The government
- The excess death rate is higher not because of people dying with or Covid. So, why are there so many people dying. More than during Covid?

- Media censorship
- Nobel prize winning medical products such as Ivermectin where taken off the shelves during the pandemic and labelled as 'dangerous horse dewormer' by the mainstream media. Since the prodigious drug donation operation began in 1987, 1.5 billion treatments have been approved and with over 112.7 million people being successfully treated yearly.
 - With an early treatment proven to be working reducing the symptoms of Covid19, emergency powers couldn't have been implemented.

- Ivermectin was administered in many countries during the Covid pandemic and proven to be effective:

-
- Silencing of doctors & stripping medical registration from doctors who didn't agree with the narrative.
- University of QLD were given government grant to rush through a safe & effective C19 vaccine. It failed their first trial. Vaxine (lead by [REDACTED]) produced a safe & effective protein-based Covax-19 vaccine yet the Australian government turned a blind eye and put roadblocks wherever they could. It's the first synthetic protein vaccine against Covid-19 to receive market authorisation, after showing protection against the Delta virus variant in a Phase 3 clinical trial in 16,876 subjects in Iran. This vaccine is not available in Australia till today.
- The role of AHPRA and ATAGI in censorship and oppression of doctors
- The poor treatment of victims (vaccine injuries).
- Restricting free speech worldwide:

- Further to that, the deadline set for the Covid Inquiry submissions from the Office of Prime Minister and Cabinet is too short and suggests that this is clearly deliberate and appears intended to be a complete whitewash. Why?
