

To whom it may concern,

I strongly support a full Royal Commission into:

1. Vaccine procurement & secret vaccine contracts
2. Vaccine mandates
3. Vaccine injuries
4. Mask mandates & lockdowns
5. Gov misinformation in the media
6. The AHPRA lack of due diligence on safety & their action with ATAGI to silence Drs who decided to do the opposite of the 2019 Au Health Management Plan for Pandemic Influenza, which prophetically described why all of the actions the Gov did take would not work?

I had to find new work and i suffered extreme discrimination with hate directed towards because of the disgusting propaganda campaign based on manufactured numbers and testimonies provided by paid 'experts'.

I hope that a royal commission can expose the criminals and find honest compassionate people to fill their positions of power and influence, then work to benefit the people rather than their self interests.

Yours Sincerely

Joshua Mitchell
