

I request a full Royal Commission for a proper investigation into:

1. Vaccine procurement and secret vaccine contracts
2. Vaccine mandates
3. Vaccine injuries
4. Mask mandates and lockdowns
5. Government misinformation in the media regarding the ability of vaccines to block infection and transmission along with denial of vaccine injuries and gaslighting of the injured
6. The AHPRA lack of due diligence on safety, their silence on undeniable harm of the vaccine and their action along with ATAGI to silence the Medical Profession.

Personal hardship endured due to vaccine mandates:

I did not qualify for vaccine exemption given my existing [REDACTED] chose to wait and consequently lost my job which mandated vaccination. My doctor explained he was powerless to make independent assessments and had to follow government mandates or risk losing his license to practice.

My wife and two children were forced to accept the jabs in order to keep their jobs. They are now suffering with noticeable decreased heart capacity.

My younger son had to be hospitalised following a stroke [REDACTED]. We, the parents were not allowed to visit him in hospital due to the mandates. We suffered immensely with anguish, not being allowed to care for him during that time his cognition was compromised.

Health response measures:

The government ignored and banned alternative and early treatments for COVID sufferers, i.e. Ivermectin and other which were proven effective treatments by world renowned doctors and scientists. Instead, the government implemented the narrative set out by globalist organisations such as W.H.O. and others whose funding model leaves it open to significant potential conflicts of interests.

Australia must exit the W.H.O.
