

## Submission for Covid 19 Enquiry

In this submission I would like to address the following terms of reference for this enquiry –

Broader health and social supports; Governance, including roles and responsibilities; Key health response measures.

The entire “Covid 19 Pandemic Response” was handled very poorly by the Australian Government.

The coercion, fear tactics, irrational directives and censorship from the Government during this time was inexcusable and unacceptable.

The most inexcusable aspect was mandating an experimental medical procedure to the Australian Public. Greg Hunt the Australian Chief Medical Officer said...”The world is engaged in the largest clinical trial ever...” To mandate man, woman, and child with an experiment goes against the Nuremberg Code: Informed Consent and absence of coercion, deceit, duress, overreaching, or other ulterior form of constraint.

The Helsinki Declaration: Respect for Individuals, the right to make Informed Consent.

Even the The Australian Immunization Handbook states immunisation providers must screen people before vaccination and obtain valid consent.

Not one person could have been given fully informed consent as there is no long term data. No Jab No Job contravenes all of the above and I believe is unlawful and highly unethical. A crime against humanity. The Federal Government failed to introduce anti-discrimination legislation, like these two Bills here (that failed to pass):- Covid-19 Vaccination Status (Prevention of Discrimination) Bill 2022 and the Fair Work Amendment (Prohibiting COVID-19 Vaccine Discrimination) Bill 2023.

[https://www.aph.gov.au/Parliamentary\\_Business/Committees/Senate/Education\\_and\\_Employment/VaccineDiscrimination](https://www.aph.gov.au/Parliamentary_Business/Committees/Senate/Education_and_Employment/VaccineDiscrimination)

That allowed the Federal Government to coerce vaccination while denying it was mandated.

They informally outsourced it to States and corporations who sacked you if you didn't inject:- teachers, police, healthcare workers, bus drivers, supermarket workers and many more.

My personal story: I was stood down on 30/9/2021 and fired from my NSW Health position of 17 years in early 2022 for choosing not to have an experimental Covid 19 Injection. My research of Pfizer's early Clinical Data told me that my condition of [REDACTED] was contraindicated. I was not prepared to risk my body with something that [REDACTED] own data suggested it was not safe. As the government measures increased in more and more control, any data of contraindications became obsolete in the face of their slogan of SAFE AND EFFECTIVE for all regardless of health or personal beliefs.

This brings me to the unelected non government body APRHA who directly issued each health practitioner in Australia a letter stating that they were to follow the Australian Health Directives under pain of disciplinary action and de-registration. Therefore my doctors were unable to give me a Medical Exemption. I was left with absolutely no medical advocacy and therefore was fired from my job and excluded from society.

I personally lost my job, my personal small business and my community volunteer work because of these Mandates.

Why were proven alternative protocol and treatment plans like Ivermectin and Hydroxychloroquine NOT allowed to be used for early treatment or allowed to be dispensed by doctors? Yet later adopted by Australian Hospitals? Why were many respected physicians and scientists who had alternative viewpoints excluded from a seat at the 'Pandemic' table? Australian Medical Giants, like Professor [REDACTED] and [REDACTED] If this was indeed a novel virus with deadly consequences of unknown proportions then why was scientific discussion from world renowned doctors discouraged and disregarded?

The comprehensive Australian Medical Professionals Society (AMPS) Book, "Too Many Dead" (an Inquiry into Australia's Excess Mortality) has 470 pages packed with evidence of the excess deaths crisis directly caused by the Government's mandated jabs and other errors – you can download the PDF for free here, or buy the paperback:- <https://amps.redunion.com.au/too-many-dead>

International Doctors such as Dr [REDACTED] and Dr. [REDACTED] both gave evidence of death and harm from the prevention of early treatment protocols and the risk of Covid-19 Injections at the US State Senate Hearings.

The Great Barrington Declaration <https://gbdeclaration.org/>. An Open Letter to the world in October 2020 so far signed by over 939,000 infectious disease epidemiologists and public health scientists who had grave concerns about the damaging physical and mental health impacts of the prevailing COVID-19 policies.

In summary the Pandemic Measures including Lockdowns, Mask Mandates, Vaccine Mandates and Vaccine Passports were not backed by Science, resulted in dividing a country into a two-tiered society and caused more harm than the actual virus.
