

As a concerned citizen having myself and my family members injected multiple times with the COVID “vaccine” with government & health officials, and medical practitioners leading us to believe they were safe and effective, and since seeing a lot of evidence to the contrary, I would like to see the inquiry address these issues.

As for mask mandates and lockdowns, there is evidence available that indicates these are not effective means of dealing with a viral outbreak. Those “in charge” had access to the evidence that these are not effective, yet the mask mandates and lockdowns went ahead. Please use the inquiry to understand why this occurred.

Why was the vaccine procurement and vaccine contract details not made publicly available? Please look into this as these were taxpayer funded. In the interests of transparency, and if these were done professionally and fully in the interests of our citizen’s best health outcomes, why was this not made publicly available?

During the COVID “vaccine” rollout, there were many health professionals concerned about an abnormally high number of injuries linked to the jabs. Why wasn’t there action taken check if there was an unacceptable risk to the jabs?

During the COVID era there were multiple instances of highly qualified health professionals voicing concern about vaccine mandates, vaccine injuries, mask mandates and lockdowns, and some advocating alternative treatments for COVID, that were censored on social media. Many of these health professionals have been since proven correct with their concerns. Please use the inquiry to find out why this occurred so this can be avoided in the future.

Please use the inquiry to find out why there was Government misinformation in the media regarding the ability of vaccines to block infection and transmission along with denial of vaccine injuries and gaslighting of the injured.

For some backup to my above comments, please see the following 10 foundational principles which is the consensus of the Global COVID Summit (GCS) after two years of scientific research and millions of patients treated. The GCS consists of over 17,000 physicians and medical scientists, their website can be found here: <https://globalcovidsummit.org/>

1. We declare and the data confirm that the COVID-19 experimental genetic therapy injections must end.
2. We declare doctors should not be blocked from providing life-saving medical treatment.
3. We declare the state of national emergency, which facilitates corruption and extends the pandemic, should be immediately terminated.
4. We declare medical privacy should never again be violated, and all travel and social restrictions must cease.
5. We declare masks are not and have never been effective protection against an airborne respiratory virus in the community setting.
6. We declare funding and research must be established for vaccination damage, death and suffering.
7. We declare no opportunity should be denied, including education, career, military service or medical treatment, over unwillingness to take an injection.
8. We declare that first amendment violations and medical censorship by government, technology and media companies should cease, and the Bill of Rights be upheld.

9. We declare that Pfizer, Moderna, BioNTech, Janssen, Astra Zeneca, and their enablers, withheld and willfully omitted safety and effectiveness information from patients and physicians, and should be immediately indicted for fraud.
10. We declare government and medical agencies must be held accountable.
