

I on behalf of 300 of my fellow health care colleagues who have been discriminated against and lost our jobs, strongly request a proper Royal Commission for a proper investigation into; corrupt vaccine procurement and secret contracts; mask mandates; lock downs; vaccine mandates, official misinformation and lies in the media regarding the ability of vaccines to block transmission, vaccine injuries; media censorship, silencing of doctors, the role of AHPRA and ATAGI in censorship and oppression of doctors, and the poor treatment of victims.

We deserve and demand answers. Covid-19 didnt wreck our lives and nation - the management of it, the censorship and dictatorship, taking of freedom of choice and our own bodily autonomy, the division the government created and the COVID- 19 VACCINES did.

The Australian people are not going to bend over again for something like this. So it is in your best interest to do the right thing and investigate properly. A proper Royal Commission. So that things can be done the right way next time, and not repeat the history that caused enormous heartache and devastation to our Australian Nation.
