

Title: [REDACTED]

Name: [REDACTED] – resident of [REDACTED]

Mobile: [REDACTED]

Postcode: [REDACTED]

How to use my information:

- Anonymous
- Individual

#### **Inquiry's Terms of Reference:**

- Governance, including roles and responsibilities with States & Territories/National Cabinet Health Bureaucrats
- International policies - Current 'engagement' with WHO and Proposed Pandemic Treaty
- Key health response measure
- Support for industry & businesses – farmers and food producers

#### **SUBMISSION TO COVID INQUIRY**

I am a [REDACTED] year old Australian citizen and have lived in this country my entire life.

#### **Propaganda, mis-information, 'alarmism', 'fear-mongering' by government and media at outbreak of Covid – early 2020**

From the very outset (December 2019 – March 2020), I was alarmed with the 'propaganda', fear-mongering and incessant news reports 24/7, surrounding the purported Covid 'pandemic'. We know now, that, having people on 'high alert' was a 'tactic' designed by 'those in government', the health bureaucrats and the mainstream media (MSM) to justify the implementation of 'mandates' and 'restrictions' on the whole of our population. Our **compliance** with lockdowns, quarantines, border closures (inside and outside the country), curfews, mask wearing, social distancing were deemed necessary to try and 'halt the spread' of this potentially 'deadly' virus around the world – the **only** way to try and 'flatten the curve' against transmission of the virus and accompanying deaths.

Concurrently, I was most seriously alarmed, when a person of dubious medical and moral credibility (none at all) by the name of [REDACTED], (capitalising on the generated 'fear') then 'announced', [under-pinning the 'directives' of the WHO, Big Tech and BigPharm] 'that EVERYBODY needed to stay 'locked down' until EVERYBODY was 'vaxxed'! My immediate reaction was – 'Oh yeah? And what's in it for you?' Knowing that [REDACTED] had 'vested interest' in MOST of the major Pharmaceutical companies. This announcement implied that there **was** a vaxx that could be 'rolled-out' for 'emergency use', even though 'medical professionals' from the 'get go' were concerned that exhaustive 'trials' had not been conducted on this 'new 'artificial' technology', questioning its safety and efficacy.

#### **A de-population initiative.**

From further 'research' that I had already done, I was also aware, that 3 generations – [REDACTED] – were **fixated** with a 'de-population' agenda (eugenics) - the argument being that **too many people are now living on the planet to support and feed – which (continual, monotonous argument) has led conveniently, over several decades, to justifying the 'climate and greenhouse (net zero) emissions narrative' – 'adopted' by 'compliant governments (also a 'scam.')** They (the [REDACTED] have subtly pushed the 'objective' of **eugenics** for decades (depopulation). [REDACTED] worked and invested in the establishment and promotion of [REDACTED] first 'birth control clinic' in Brooklyn in 1916, from which Planned Parenthood evolved. Planned Parenthood is now the largest abortion provider in the world. [REDACTED]. However, at the

beginning – [REDACTED] targeted [REDACTED] in the US (though wanting birth control for all women). [REDACTED] still interferes with the health and 'well-being' of children in African countries and also poor communities in India.

**Fact:** It is estimated that 73.3 million unborn babies are 'terminated' **every year**, world-wide. In my view, **that** is de-population.

**Note:** [REDACTED] – opened March 1980 (now recently destroyed) opined that 500million people was considered the 'right balance' between population and nature.

#### **Influence on Federal Government and adopted 'independently' by the States - National Cabinet.**

**The Doherty Institute** – which enjoyed funding by [REDACTED] – was the 'model' that the Federal government adopted at the outset of the 'pandemic' The Institute 'feared' that as many as 150,000 people could die from 'covid' in this country and so the Government – Morrison, Greg Hunt, Professor [REDACTED] all pushed ahead with the border closures, quarantines (in some unfriendly facility) for 10-14 days for Australian citizens wanting to come back into the country, leading to the 'roll-outs', and 'oppressive mandates' ill-advisedly (or knowingly), in an attempt 'to halt the spread and flatten the curve', at the same time, giving exaggerated 'powers' to the States. Even though this 'estimate' proved in actuality, **to be a gross exaggeration** – the Morrison government **still** later continued to endorse the Institutes' 'models', even when it became apparent that the 'pandemic' could be rightly seen as a [REDACTED] which profited the 'stakeholders' immensely, at the same time, ruining our economy and plunging this country into massive debt. I cannot fail to mention the considerable 'trauma' inflicted by State Premiers and Health bureaucrats, in their turn, with the 'powers' vested in them', against their own constituents by mercilessly imposing 'border closures' and prohibitions. Attempts to visit and sit with dying 'loved ones' in Hospitals, attend funerals, weddings, (if family members were coming from Interstate) were frustrated **UNLESS THEY HAD BEEN VAXXED**. The effects on children removed from school, businesses, schools, learning institutions, sanctions on churches, vaxx mandates imposed on our 'essential services' – defence/service personnel, nurses, teachers, paramedics, etc) caused **great suffering and mental anguish**. People in this country had to juggle **each States'** own set of rules. **Yet, Morrison continued to say – 'There ARE no vaccine mandates in this country'. Talk about** [REDACTED].

**Note:** I listened to Morrison, Hunt and [REDACTED] as they announced the 'rollout' of the vaxx **25<sup>th</sup> January 2021** – **never** did they mention the safety and efficacy of the 'jab'. [There weren't any.] What I did know about the 'vaxx' was that it was 'an **artificial** treatment – NOT a vaccine in the legal sense – because it does not contain any 'live virus'. 'They' (the vaxx) were rolled out by 'compliant governments' at the insistence of the World Health Organization, CDC and other entities in the US, as an EMERGENCY MEASURE to treat the SYMPTOMS of a 'Covid virus' – that, in fact, did not manifest 'as the diabolical threat' it was first purported to be, **anywhere** in the world. **The 'vaxx' are still not proven to be safe or effective**. What **is** proven is that the vaxx, does NOT protect people from the 'virus' nor does it stop transmission. What we **do** know about this 'artificial treatment' is that it 'wipes out' our natural immunity – leaving people vulnerable to other strains and infections - and its composition is deemed to be DNA altering. Meanwhile, **hydroxychloroquine (HDQ) or Ivermectin – known since WW11 to be effective against malaria and proven 'safe' over a long period of time, was 'demonized'**. Drs [REDACTED] (USA), [REDACTED] (USA) and [REDACTED] (Australia) all called for the release of HDQ knowing that it could, prevent the virus from progressing to Stage 2 and avoiding hospitalisation.

At the outset, President Trump tried to assure American people that HDQ could be used to moderate 'symptoms' (he took HDQ himself, as a prophylactic) but Fauci and company, I feel, shut him up. [BigPharma was not to miss out on a killing]. All along – 'our compliant governments' were playing into the hands of the 'globalist agenda', at the expense of the people, wrecking families and businesses and eroding the 'confidence' of its citizens.

It is further understood, that BigPharm had an 'indemnity' clause in its contracts with governments, that even if a less costly 'treatment' was found – the full cost of the 'contract' was binding. In actual fact, 'the Covid virus' was finally understood to be '**a flu-like illness**' from which 95.5% of people recovered. 99.9% recovery for children. The 'virus' predominately affected the 'elderly' who had other co-morbidities, which contributed to their deaths, BUT those deaths were 'recorded' as 'covid deaths', despite other mitigating health issues. No age group was exempt from the fanatical attempt to 'vaccinate everyone'. It further turns out, that children and pregnant women **should not** be vaxxed. For pregnant women, it is not safe. Children are resilient against the 'flu-like virus' and have a 99.9% recovery rate. [Data established by medical professionals]. In Australia, it was recorded that through 2020, 957-9 people died from 'covid' in a population of 25 million. By any stretch of the imagination, this is NOT a pandemic. (obtained from government website).

**Note: Monash University in Australia, [not the most reputable institution] finally made a statement in August, 2021 – 'Studies show that HDQ kills the virus within 48 hours'. Frontline Doctors also reported that fact, when asking for HDQ to be (at least) trialled. Didn't happen. Dr [REDACTED] USA), also asserted that the use of 'Povidone-iodine – Betadine, gargled and swabbed up the nose, at the beginning of the symptoms, (because that is where the virus 'lived') suppressed the virus within 48 hours preventing the 'virus' from moving to Stage 2 – reducing the necessity for hospitalisation. His is one of the leading 'voices' in this 'counter-narrative'. Hospitalisation and the use of Remdesivir also proved to be a 'death' sentence. [REDACTED] testifying in [REDACTED] Senate – outlining protocol for treating hospitalisations - Youtube**

### Faulty PCR tests

**To add to the 'mismanagement' – at that time, it also emerged that the PCR Tests CANNOT differentiate between the 'flu' and the 'virus' – they were never intended to do so. Further, the tests were 'run' in excess of 20 cycles – ramped up to around 30-35 cycles = way over the limit and to the greater extent, produced 'false positives'. [The poor people in Western Sydney (not to mention the people in Victoria who endured the most severe and continuous lockdowns of any country) were subject to extreme 'lockdowns' and 'over the top' testing which were not producing accurate results]. What a shambles! The fraudulent 'faulty PCR testing became the subject of Court review at Nuremberg. See [REDACTED] – International Lawyer specialising in 'fraud' uncovering this 'truth'. He describes what has happened to the global population as - 'the greatest crime against humanity ever committed', particularly in light of the PCR tests proven to be fraudulent.**

Google: [REDACTED] – Interview with [REDACTED] – Brighteon.com

The mantra put out by the WHO – **We are ALL sick until proven healthy** and PCR and Rat tests became 'a way of life'.

All the while – as the Premiers played their 'own power game', Dan Andrews in Victoria outpacing them all - Morrison did not and would not 'challenge' the National Cabinet, allowing the Premiers to remain unchecked. There were NO cohesive guidelines for the country as a whole. State Premiers have still not forfeited their 'over-reaching' powers or been asked to do so by the Federal government. I also ask, **where was Greg Hunt in all of this?** It seems that ALL the 'players' refused to 'look at the counter narrative'. Instead, operated solely on what the WHO and other Agencies 'dictated', while the incessant MSM insisted 'we follow the science'.

**Medical professionals around the world, raising the alarm at the outset, as to the efficacy and safety of the mRNA vaxx.**

I began to look further, and in the months prior to the 'roll-out of the vaxx', credentialled medical practitioners – virologists, research scientists, epidemiologists, cardiologists spoke out loudly, from around the world, **that this 'vaccine' was not properly developed or exhaustive clinical trials undertaken and it couldn't be deemed 'safe'.**

**Names of Doctors – outstanding in their respective fields** – [redacted] (former scientist with Pfizer); [redacted] (Ireland) – World Freedom Alliance; [redacted] (Nobel Prize nominee – sadly died from a cancer on 30<sup>th</sup> June 2022 – about 50 years old); [redacted] Nobel Prize Winner/Inventor); [redacted] [redacted] (research fellow – discovered in about 2010 that [redacted] and Wuhan China were 'experimenting'. She was demonised and her 'findings' defunded and destroyed. Dismissed from her Research Institute and threatened with gaol. What she also discovered that the Obama Administration then 'put a stop' to the involvement of the [redacted] (it had become too dangerous), but continued to fund the 'project' in Wuhan; [redacted] – retired – traces history of 'covid fraud' from the beginning; [redacted] [redacted] – young mother of [redacted] – founder of Americas Frontline Doctors [redacted] (57 years deceased – foul play suspected); [redacted] [redacted] – warned – this is not a vaxx, it is irreversible genetic modification; Associate Prof of Medicine – [redacted] warned that these are expensive 'pharmaceutically engineered' drugs; [redacted], Dr [redacted] [redacted] – he has noticed a 'spike in aggressive cancers' since the vaxx – even people who have been in remission for many years have seen cancer return).

#### **Indictment against the Morrison government and successive Government –**

is that multiple petitions were 'sent in' by the citizens of this country opposing 'mandatory vaccination' – a decision made even worse, if a person's job or livelihood was threatened. The petitions were not taken into consideration. The people spoke and were ignored.

Mandatory or coerced vaccination violated Australia's Constitution.

**The Covid-19 Vaccination Status (Prevention of Discrimination) Bill 2021** went before the House. **Only 7 Senators** stood up for our Constitution and the rights of Australian citizens NOT to be forced or coerced into any mandatory intervention.

**The 'key players' – representing the Australian people – 'over-ruled' the Constitution and ignored the pleas of 'thinking and responsible Australians'. What is the penalty for those wilfully violating the Constitution?**

#### **Suppression of Data on 'adverse events' from around the world**

With the 'rollout' of the mRNA 'vaxx' – before long, people were reporting 'adverse events' of a serious nature. The Frontline Doctors, at the outset, warned the likelihood of this occurring. Data was collected, but not published, here in this country and overseas. The Health Agencies preferred to 'stay quiet'. However, Dr [redacted] (UK) in particular, has recently disclosed data on the 'obvious spike' in people suffering cardiac problems' here in Australia – since the vaxx rollout. Data shows that far more people have died from 'adverse events' from the vaxx, than from the 'virus' itself. Dr [redacted] – supports soaring heart issues. Adverse events do not relate solely to heart problems. Clotting disorders (deep vein thrombosis), anaphylaxis, seizures, acute cardiac injury, facial weakness or paralysis – Bells palsy, Guillain-Barre syndrome, miscarriages, autoimmune disease. Dr [redacted] – [redacted] USA has reported that tests are now showing a 'spike' in aggressive cancers – even for those who have been in remission for 20 years.

Another phenomena is the number of 'elite' athletes, who have collapsed and died on the playing field. The question of 'why' is not reported.

A champion in the 'quest for truth' is [REDACTED]. He has written a 600 page volume on [REDACTED]

[REDACTED] The facts are 'out there'.

**Former Senator, [REDACTED]** back in October 2021 in a Blog wrote – 'We've been conned'. He stated – **'nation after nation has battered its economy and its citizens into submission & bankruptcy. It has been the most disproportionate response to a perceived problem in history'**.

**10.10.22 [REDACTED]** – Interview – **Rethinking Covid** 2 hr 19 mins. Prof Medicine Stanford/Dr [REDACTED] – A sober evaluation of covid vaccines. Youtube.

## **To Summarise**

### **Governance**

The 'mismanagement of Covid' by government(s) – State and Federal and the subsequent 'fallout' on the citizens of this country (and around the world) is colossal. Reiner Fuellmich and Others are correct when they declare that – **'what has happened to the global population is 'the greatest crime against humanity ever committed'**.

The Citizens of this country have been 'bullied and coerced' into complying with mandates and restrictions that saw a trajectory in mental illness and suicide among the young; left people in Aged Care without family support for long periods of time; forced people **to be vaxxed** in order to hold their jobs and secure a living – which violated our Constitution - every aspect of our societal structure has suffered loss. Our country has been 'gutted' psychologically, productively and financially. It is going to take 'a long time' to recover. We have been betrayed by 'ignorant and incompetent people' in authority and in our Institutions, who 'have danced' to the globalist tune. What has been spent on procuring a 'vaxx' that doesn't work and causes adverse health outcomes, has made the deca-wealthy even more sickly wealthy.

This entire 'deal' has come at great cost to the people of Australia.

**No wonder the Albanese Government doesn't want to launch into an Inquiry and has brushed the 'request' under the carpet and 'just hopes the notion of an Inquiry – will go away, if you ignore it long enough'.**

### **WHO Pandemic Treaty**

**Il protest the leaders of this country 'signing us up' to the WHO Pandemic Treaty. An 'unelected' Body ie WHO, UN, has no right to 'dictate' to or threaten the 'sovereignty' of this country. Several countries have already withdrawn their support of this proposal. I suggest that this country – follows suit and withdraws from the 'influence' of the WHO. We do NOT want 'more of the same' in the future.**

### **Support for industry and businesses 'gutted' by Covid Response**

**Support for farmers and food producers – threatened by unreasonable 'production requirements'**

Again, the name [REDACTED] is touted – alleged to have bought up vast tracts of land in the US to further 'modify' food that is produced and distributed. **Is mRNA to be injected into beef cattle –(in this country) which unsuspecting people then consume? What are we going to be able to eat which has not been poisoned or 'modified'? Again, he has 'meddled' with food production in India. (His [REDACTED] knows no bounds. He is committed to his 'agenda'.)**

Let Australian farmers and food producers 'DO' what they do best without compromising them ethically and financially.

**Key health response measures.** In this regard I cannot offer anything constructive. There are 'others' who can 'collectively' work out measures to protect this country from future 'health scares'. Again, [REDACTED] has warned that there **will** be 'another pandemic'. However, let us look to our own 'initiatives' and NOT fall for the WHO's manipulation and control.

**Finally -**

I make my appeal – I am opposed to the removal of our 'Freedoms' by governments in the form of mask mandates, vaxx mandates, lockdowns, curfews, social distancing, border closing, prohibition on visiting people in hospitals, government facilities, nursing homes, vaccine passports, proof of vaccination for medical records. What has 'been dealt' to the Australian people over the last 4 years, based 'on the science', lies and misinformation has seriously, set this country back'.

What has also been undermined is the doctor/patient relationship. People no longer have the 'same trust' of medical opinion since 'covid'. Medical professionals also have been 'put under pressure' to only speak the 'government narrative, for fear of being 'barred from practice'.

A thorough Covid Inquiry **should** be convened, to look into ALL aspects as to how the Pandemic (Scamdemic) was handled. Those who 'over-reached' their 'authority and powers' should be named and held accountable. [But, of course, the 'snakes' will slither out of the snake pit in the hope that that never happens. At the very least, government pensions should be withdrawn. Happily (for the perpetrators of the wrong doing /crimes against humanity) it is not the 1500's when 'traitors' were sent to the Tower.

Thank you for reading my Submission. I hope that 'justice' prevails. Certainly, 'the truth' always comes out in the long run.

Let us be arbiters of Truth. People are 'done' with the lies and certainly with government intervention where our 'freedoms and liberty' are at stake.

[REDACTED] – [REDACTED]

**Footnote:** Both Morrison and Albanese were under [REDACTED] sway. Interesting that Albanese spent more time with [REDACTED] after his return from Alice Springs (riots) that he did trying to 'address' that unrest. And where is Greg Hunt? Back under the umbrella of the WEF?

**Postscript:** Will these oppressors 'get off Scott Free?' No. There is one Court from which they can't escape. EVERYONE has to 'give account' in the long run to Almighty God – **Ecclesiastes 12:14. states: (through King Solomon) 'For God will bring every deed into judgment, with every secret thing, whether good or evil'.** No escape for those who have done wrong. A price will remain on their heads, till the 'score is settled'.
