Covid Response Enquiry, my submission.

Most of my life I have worked in hospitality, occasionally I would work in an office. I even tried security once, and I excelled to the top.

In 2019 I decided to look into disability support courses, with the aid of my service provider.

Towards the end of the course in 2020 completing all assignments, and passing, we began our placements.

Placement was difficult, as Australia was in covid 19 restrictions.

Sometimes we could go back to classes, and sometimes we couldn't.

Anyway, I managed to complete the course and begin working in disability support.

Unfortunately Premier Daniel Andrews mandated the covid vaccine in Victoria. And as it was a new trial, and this vaccine was so young, I chose not to participate in the experiment. I do also recall PM Scott Morrison saying that the vaccine was not mandated.

Premier Andrews wouldn't hear of it, and held firm on the mandates.

Throughout covid and still  
continuing today, December 2023.  
It is still hard to find work in  
Victoria,

without a vaccine passport.

Back to covid pandemic protocol for Victoria.

Mask on, mask off.

Don't go to school, go to school, as with work.

Mask off when sitting, mask on when placing order?

Closing small business to force rural communities into the cities to shop, made no sense.

Doctors are closed, but Dan Murphy is open?

My GP said I had "herd immunity", yet their opinion doesn't matter.

My psychologist said, "I shouldn't be telling you this, but I have had a reaction to the vaccine." I only saw

them once after that. The system owes me four more sessions. Alas, I have lost confidence. Main steam media tried to expose things, but were suppressed heavily?

Let's just say, "I understand what discrimination is now."

I have resigned from Disability Supports, as I can not lie to my clients and tell them I am vaccinated, when I am not. Nor can I stand by and watch the gaslighting continue.

Now, I am finding cash jobs so as I can disconnect from the system as much as possible. Defund, bailing in or bailing out... whatever.

No Confidence

Mentally coping, because that is what I've been trained to do.

I reckon my clients miss me though. I did make a difference.

Sincerely
