

# Submission and evidence to the COVID-19 Response Inquiry

Government overreach was unprecedented during covid. When studies came out showing that the medical modelling was wrong, natural immunity was the best option and that the control measures in place were ineffective, instead of taking a common sense approach government officials doubled down.

This caused a huge amount of pain and suffering for so many - suicide, mental health issues, loss of livelihoods and economic problems.

When the vaccines were proven to be neither safe nor effective (not surprisingly since they only had emergency approval and no long term safety data), mandates which should never have been in place anyway were not removed for a considerable time.

**If there was ever a need for accountability and a Royal Commission it is now!**

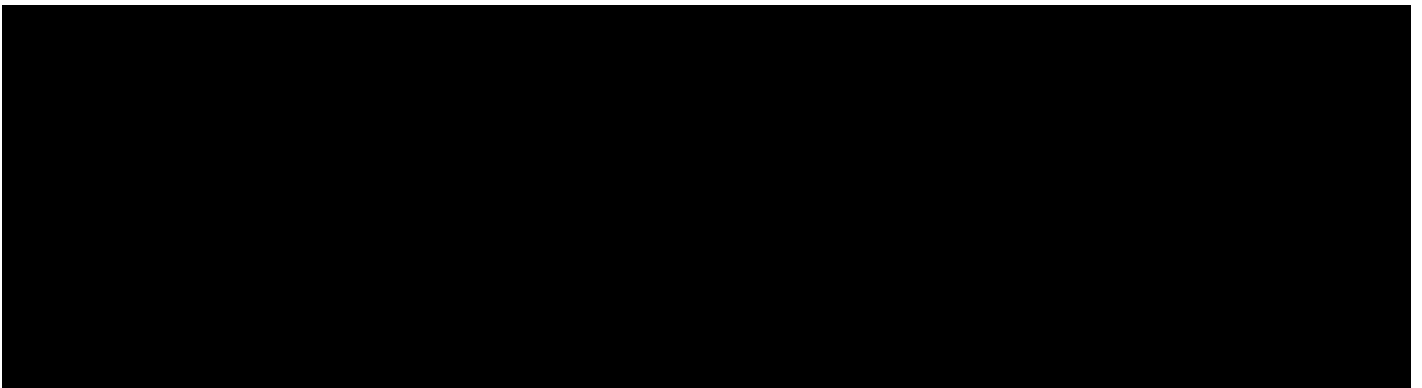

Below is evidence links to my above statement. There is so many more studies and links:

## **Vaccines**

### **Safety**

The TGA figures show that there are now over **100% more deaths** recorded in the first year since the launch of the Covid-19 vaccines in December 2020, than during the **entire 30-year history** of recording deaths following **EVERY TYPE of vaccine combined** since it was established.

<https://uap-media.com.au/wp-content/uploads/2021/09/daen-report-20210821-vaccine-full-report-adverse-events-and-deaths.pdf>

## **Young people had worse reactions to the Vaccines than covid**

<https://www.medrxiv.org/content/10.1101/2021.08.30.21262866v1>

For boys 12-15 without medical co-morbidities receiving their second mRNA vaccination dose, the rate of CAE is 3.7 to 6.1 times higher

For boys 16-17 without medical co-morbidities, the rate of CAE is currently 2.1 to 3.5 times higher

## **No long term Safety data. Pfizer only monitored the mice up until 28 days.**

**Why? Why would we allow our people to be the trial whilst claiming it to be safe?**

<https://www.biorxiv.org/content/10.1101/2020.09.08.280818v1.full>

## **Can Pfizer be trusted?**

They do hold the world record for the largest fine - 1.3B - for deceiving their customers with intentionally wrong information on unsafe products. So why would our government do deals with them?

### **No scientific consensus**

3100 Doctors and scientists declare rights to treat patients individually, instead of enforcing one treatment. I.e allow for Ivermectin and other alternatives, and not force vaccines.

<https://doctorsandscientistsdeclaration.org/?fbclid=IwAR1EV2rdqEWxZS-1TSs7qrSw7MnrDLmBglsNGN9yQB6q0Nx3ZAh8XAZuFmQ>

### **37 deaths from the Flu in 2020 for Oz (953 in 2019)**

<https://www1.health.gov.au/internet/main/publishing.nsf/Content/ozflu-surveil-season-summary-2020.htm>

## **Are there any safe alternatives?**

### **Ivermectin studies**

There have been 96 studies done, 81 of them peer reviewed (at the time of this link) and show extraordinary results as both a prophylaxis and cure. It is cheap, safe and effective. Vaccines are none of these. There is no need at all for a vaccine, yet that is what is being effectively mandated. The question needs to be asked why? And why has a medicine that has been on the WHO's safest medicine list for 30 years being restricted and doctors being threatened to lose their licence if they prescribed this multipurpose drug?

All Studies summarised and collated. Hyperlinks to all the university studies on their own sites.
