

immeasurable.

What right does any politician , beurocrat and medical authority have to impose medical tyrann on Australian citizens, I hope you go to sleep every night recalling the trauma and hurt you have caused the Australian people, thankyou for hearing my submission.

My Submission for Court

The vaccine mandates have had a profound effect on my life and future plans, [REDACTED] and myself had planned on me working at least another couple of years, this was important to us planning for our financial future as self funded retirees and very important to me as I enjoyed my part time job, I enjoyed working. *WNC complains now has to put me 7 days into ob5.*

Not being able to travel interstate or overseas have all had a negative profound effect on my life, intensified by the effect of [REDACTED] which could affect his ability to travel sooner than later.

The stress and fear caused by the unknown Covid effects in the beginning on the most important person in my life, with his [REDACTED] The tension and arguments between the two of us about his health choices when I had self doubts about my convictions and doubts about the information published caused so much anger and hurt.

To be told by [REDACTED] "I don't want you here associating with me and I will hold you accountable for my [REDACTED] if it worsens".

To be told your stupid, you don't know what you're doing and just go and get jabbed.

I was an employee at WACHS Albany for 46 years and I never dreamed that my employer would and coerce me into a non consented, unproven procedure and when I refused to terminate my employment.

[REDACTED] and I were Unable to visit [REDACTED] in Their Nursing Home, yet they could come and sit outside with us and We could take them out, how does this make sense, I could have face to face contact with [REDACTED] when problems arose, I could only support my family over the phone, ~~which caused problems with family dynamics~~, my refusal to reconsider my view getting

Caused vaccinated ~~causing~~ stress on family relationships, and when told by [REDACTED] you could change your views and visit us and help us if you wanted to, *made making it so hard*, causing the rift between me and [REDACTED] to deteriorate adding more stress and despair, [REDACTED] and the mandate caused me to miss out on time with her which will never be regained.

To be told you deserve to die and deserve to lose your job by relatives is not a nice feeling.

Being told at a Drs surgery you can wait on chair outside for your appointment, this is being treated like a second class citizen.

Freedom of lack of choice when I was not allowed to enter cafes, preventing me from socialising with my friends and living life as I chose,

Damage to my self esteem personally and in business as a living woman has been affected, with people not understanding and being fearful of close contact. *I must stop having our new on same pay as us is so important to us, as not many you can*
When [REDACTED] said to us, that it is a no brainer and bloody stupid to refuse the vaccine if it means losing your income, this adds to the feelings of coercion and stress.

The stress and anxiety and lack of understanding and respect of my choices and beliefs is
