

Due to the government's handling of a flu which was renamed Covid-19 I lost my job due to refusing to get the Covid jab after [REDACTED] years without a sick day and lost my business for [REDACTED] due to the border closures and lockdowns.

I'm requesting a proper Royal Commission for a proper investigation into:

1. corrupt vaccine procurement and secret contracts – big pharma being paid billions from our taxpayer funds.
2. mask mandates – even though masks do not stop the spread of Covid-19. Hilarious really.
3. lock downs and border closures – unnecessary, ineffective and so destructive by every measure including the economy, small business of which mine was one.
4. vaccine mandates – I was sacked after [REDACTED] years without a sick day and was still healthy at the time while most of the rest of my office were ill. Quite Ironic.
5. official misinformation and lies in the media regarding the ability of vaccines to block transmission and vaccine injuries. My own family like so many others has suffered jab injuries including [REDACTED]
[REDACTED]
6. media censorship, silencing of doctors, the role of AHPRA and ATAGI in censorship and oppression of doctors, and the poor treatment of victims.

This inquiry is clearly a whitewash, the community is not happy and is demanding answers that only a Royal Commission can deliver.

Many of us in the community know nearly 1,000 Australians are dying each week from the Covid-19 jab. That was the official ABS excess deaths figures for 2022 early this year and then at the Senate Enquiry in the middle of the year which suddenly got changed/reduced late this year. That alone warrants a Royal Commission, just if nothing else please investigate and get to the truth of that alone!

The families of dead Jab victims and the victims of Jab injuries deserve the truth.
