

To Whom It May Concern

The purpose of the inquiry is “identify lessons learned to improve Australia’s preparedness for future pandemics”.

The federal government was allowed to coerce vaccination while denying it was mandated. They informally outsourced it to states and corporations who sacked you if you didn’t inject: teachers, police, healthcare workers, bus drivers, supermarket workers. People were being sacked for not injecting, is by saying the FEDERAL government failed to introduce anti-discrimination legislation like these two Bills here (that failed to pass).

- Key health response measures: (eg: the gene-vaccines and treatments, key medical supplies such as personal protective equipment, quarantine facilities, and public health messaging)
- International policies to support Australians at home and abroad: (including with regard to international border closures, and securing vaccine supply deals with international partners for domestic use in Australia).

A reminder to the government, that provisionally registered medical products rely on adverse event reporting to build the safety profile of the drug, and that if you then censor and bully people from criticising that drug then you will break that system, killing people.

The Australian government gave \$8 billion to Big Pharma for poorly tested gene-vaccines, sight unseen, then having the chair of CEPI (that pushes mRNA and 100-day vaccines for the [REDACTED] review the procurement deal might be a conflict of interest. How and why could this happen. There are many people that know what is going on behind the scenes and how other countries are involved and the slow rollout of the one world government and the rest. Absolutely disgusting!!!! As an Australian, people who are representing us ARE NOT. They are all in it for themselves and the greed of money.

The comprehensive AMPS book Too Many Dead has 470 pages with evidence of the excess deaths crisis directly caused by the government’s mandated jabs and other errors.

We know that the government are overtly manipulating ABS data to hide excess deaths.

There is so much out there and the people that know what is going on.

Personally. Many people that I know have taken the vaccine have now regretted it. People I worked with have heart issues and they were young fit athletic people. Others have medical issues that have come from nowhere as there is no evidence throughout their whole family history.

The number of relatives, friends and family that now have [REDACTED] [REDACTED] have them growing at the fastest rate seen. Friends with babies in hospital with [REDACTED] and doctors cannot explain why. Fetuses being naturally aborted from mother's wombs, as there are so many things wrong with them. So many deaths!!!! So many!!!!

My [REDACTED] was stuck overseas in a compound for 7 months and took its toll mentally. We have gone on 3 years working with him to support him to recovery.

You all know this as this is what the plan was to divide people and set people up against people. Disgusting.

This inquiry is to support the real people of Australia. The ones that support each other, that stand for truth, that share comradeship and actually care. To well out a nation to another???? By doing the unthinkable is on those who have committed this atrocity. It doesn't matter what you think of me or anyone opposing what is going on. Our hands are clean. Judgement will come, it will come.

This is not to happen again. Stop selling out Australia in any ways or mean. It is not yours to do that with it. The government and those that work for it are not ALL the Australians. You forgot to count the rest of us! We are ALL AUSTRALIANS.

Opposing the lies, the untruths!!!

Michelle
