

Attention: [REDACTED]

Dear [REDACTED]

I am sending you this email to voice my concern about the Mandatory Covid - 19 vaccination programme.

At the outset, I am proud to have been working with the [REDACTED] for over eight years and I take my job very seriously. During this time, I have enjoyed my role as an [REDACTED], as well as [REDACTED] and [REDACTED], within the [REDACTED]

My duties extend to closely working with and supporting the professional [REDACTED] staff, in [REDACTED] and the [REDACTED]. I also support students who have challenges with their learning and find it incredibly rewarding to see these students responded in a positive way to the support that I give them.

My [REDACTED] attended both [REDACTED] schools in the [REDACTED] and [REDACTED]

Over the last couple of weeks there have been several emails coming from both [REDACTED] and [REDACTED] exploring the possibility of a COVID Vaccine rollout to all staff in schools. I note that the two separate emails dated Fri, 27 Aug 2021 were sent by [REDACTED] but without any *one* person for me to send a reply to. I have also received emails from [REDACTED] the personal assistant to our Principle, [REDACTED] and I can only assume that these emails were sent at his directive. [REDACTED] would you be good enough to let me know if it is you I should make my point of contact, or who to direct my correspondence too, particularly as more information becomes available, thank you.

The potential that I may be required to have the vaccine, in order to maintain my current position, has caused me great anxiety and stress.

Having said that, with respect to the correspondence regarding the encouragement to have the COVID vaccine, I would be most grateful if you would provide the following information in accordance with the statutory requirements:

- Please provide me with the approved legal status of the required vaccine that I am to be injected with.
- Please advise if the vaccine is experimental.
- Please provide details and assurances that the required vaccine has been fully, independently, and rigorously tested against control groups.
- Please advise the subsequent outcomes of those tests.

- Please provide a full list of the contents of the required vaccine that I am to receive, and if anything in the vaccine is toxic to the body.
- Please advise of all the adverse reactions or side effects associated with the vaccine since its introduction, and the likely risk of injury or fatality from those side effects.
- Please confirm that the vaccine that you are advocating is not experimental mRNA gene altering therapy.
- Please confirm that I will not be under any duress from you as my employers, in compliance with the Nuremberg Code.
- Please advise me of the likely risk of a fatality should I be unfortunate enough to contract COVID-19, and the likelihood of my recovery.

Once I have received the above information in full, and I am satisfied that there is no threat to my health, I will be happy to consider the acceptance of your offer to receive the treatment, but with certain conditions - namely that:

- You confirm that I will suffer no harm.
- Following acceptance of your request, the offer must be signed by a fully qualified doctor who will in turn take full legal and financial responsibility for any injury that occurs to me, and/or from any interactions from authorised personnel regarding these procedures, or alternatively, that you as my employer take full legal and financial responsibility for such injury.

If I should have to decline the offer of the vaccine:

- i. Please confirm that this decision will not compromise my employment position and that I will not suffer any prejudice and/or discrimination as a result.
- ii. I am prepared to wear appropriate PPE if required to continue in my current position and if this is not possible, I would be prepared to move to another position of employment within the company or I would also be prepared to provide virtual support on the basis that my current hours are maintained.
- iii. I am also prepared to pay for an antibody test to confirm whether I have previously contracted Covid-19, on the assumption that if I have, that I will not be required to undertake the vaccine.
- iv. I request that my unalienable rights are preserved.

Thank you in anticipation of your response as soon as possible.

Yours faithfully,
