To Whom it may concern,

I am an Australian Citizen that was targeted by the Australian Government as one of the first to have an experimental drug forced on me due to an outstanding health condition.

I work for myself and support my family.

As someone that did not comply to illegal Government pressure, my health and the health of my family, has not been compromised due to experimental drugs.

It is my will as an Australian Citizen under the Commonwealth of the United Kingdom and her realms, that the Australian Government execute a full Inquiry into the Covid – 19 Pandemic and all actions taken by all Ministers and Judiciary staff, at all levels, in all departments and all affiliated persons, and businesses, in all departments, public and private at all levels, including the Australian Health Industry and the Australian media.

First and foremost, it is written in our law that all ministers be held accountable for all of their statements, involvement and actions. Seldom few ministers involved, if any, can personally support their claims relating to their actions, opinions or statements made during the “pandemic” due to lack of expertise, credentials or credible data.

The Australian media and the Health Industry as a whole, are complicit in what can only be classed as a one sided propaganda style campaign of safe and effective and every life matters for an experimental drug that does not function or perform in the manner it was claimed to have functioned.

Every measure that was rolled out for this “pandemic” was already known to have little or no effect and cause more harm than good, from lockdowns all the way social distancing and masking. All measures have since been reaffirmed by multiple specialists and organisations around the world as being as such.

The Individual State Premiers of the Australian “National Cabinet” rolled out these varying detrimental procedures and protocols with the mantra of safe and effective, every life matters and take the experimental drugs or you’ll be excluded from society, after the Federal Government offered each Australian State and Territory substantial financial incentives to roll out “pandemic” measures anyway.

In any other legal realm this would be seen as a bribe.

This whole orchestrated affair has been a massive breach of long standing human rights, especially to bodily autonomy, freedom of movement and choice, the Nuremberg code and the Geneva Convention.

Can the Australian Government explain to the people of Australia why they were allowed to exercise their Rights to Bodily Autonomy and Freedom of movement under the Commonwealth Constitution whilst they forced and mandated the people of Australia to comply, for reward of everyday essentials and contact with family and friends or be cast out from society.

To approve forced administration of experimental drugs on any population, by anyone, especially by defence force personnel on their fellow countrymen, is not just a breach of human rights and an utter disgrace, but could also be seen as a declaration of war due to potential Genocide or worse still Democide.

Former Italian Health Minister Roberto Speranza under investigation for homicide in his jurisdiction after emails reveal concealment of evidence by his department related to death and serious side effects related to the Covid – 19 vaccines.

Information flowing in to the Australian Senate from around the world, is now being presented by Australian Senators on record.

Data and statements submitted on record to varying governments around the world now prove that this “pandemic” was not what officials claimed it to be and that all measures including experimental drugs were unwarranted.

Most recent valid statements made to members of the United Kingdom Parliament involving Steven Kirsch, Dr. Peter McCullough, Dr. David Martin, Dr. Robert W Malone, Dr. Ryan Cole, Michael Yeadon, Dr. Angus Dalglish, Andrew Brigden Member of Parliament and varying United Kingdom Ministers from the House of Commons and The House of Lords.

Can the Australian Government explain why they are taking orders without question from a foreign medical regulator.

It is my will that the Australian National Cabinet and all associated ministers and staff provide the instrument that it draws power from under the Commonwealth Constitution of the United Kingdom and her realms.

It is my will that all levels of the Australian Government, all branches of any related medical industry, any media entity involved, residing within our lands and laws, be investigated for actions and behaviours that facilitated what can only be seen as a crime against the people of Australia and the people of Earth as a whole.

It is my will that the Australian Government allows more time and improved advertising to the Australian people in request for written submissions in this matter.
