

COVID 19 Inquiry Panel  
Australian Government

Dear Inquiry Panel,

I am writing to you in relation to Australia's response to the COVID 19 pandemic.

In April 2021 one of the first persons to officially die with blood clots after taking the government sponsored COVID 19 vaccine was a woman living in the [REDACTED]  
[REDACTED] The news broadcast indicated that she was in her [REDACTED] and was an [REDACTED]

At the time my, with my own investigations I could not find any information where there had been any testing on the vaccines for contraindications specifically for insulin diabetic people.

Based on this I was not prepared to entertain taking an unproven medical intervention and found that the governments position on mandating that people take these medical interventions a total violation of my individual rights.

Regards,
