

## COVID INQUIRY

The following are my major concerns regarding the Covid pandemic:

1. Why in the case of Covid 19 did they change the designation of 'the cause of death' for the purpose of statistics, that is defining the death as a 'covid death when the person died with Covid but died from or with some other major comorbidity or some other trauma or accident.
2. Based on the above if only 5% of deaths 'with Covid' were 'from covid' why a pandemic was declared at all.
3. Detailed pandemic plans were prepared by Federal and State Governments in the early 2000. Why were these plans ignored and not followed. In fact, regarding mandates, masks, and many Covid measures the direct opposite procedures to those recommended by the plans were followed.
4. Why was the advice of experts not openly debated. Why were they silenced. Why were Doctors denied the right to treat patients' symptoms as has been the practices since medicine began. They were drugs banned that were being successfully used around the world. WHY WERE ALTERNATE VIEWS CENSORED, WRONGLY DISCREDITED.
5. Why were people forced to undergo medical treatment with the experimental vaccines.
6. The vaccines caused numerous deaths and injuries but were not discontinued as had been the practice since the establishment of the TGA. A comparison with other medical treatments, health products and drugs would reveal total inadequate responses by the TGA and health officials.
7. Why isn't the Royal Commission looking in detail at the States particularly the premiers and health officials mandates and public scare mongering.
8. Why were big business allowed to operate and smaller operators closed down.

9. What is the cost benefit analysis of the mandates/vaccine as to the 'real covid deaths injuries.
10. Why are the contracts for the purchase of the vaccines and conditions not made public.
11. Why did the Government, Politicians and Health officials claim that vaccines would stop transmission, reduce hospitalisations and deaths when none of the clinical trials showed that this was the case. Upon what did they base these Statements.
