

Covid 19 Response Submission to

Draft

15 December 2023 at 20:55

My name is Michael.

I am a NSW citizen who is writing to express my concerns over how the Covid-19 response was handled by the Governments and Police Forces in Australia.

In direct response to your "scope".

1. The fact that every state and territory made up their own rules is proof that everyone was just making these tyrannical rules up! There was no evidence or studies that backed any rules implemented.

2. Masks do not protect anyone from anything so stop pushing the lies! There is no hermetic seal with a surgical mask. The particles we breath out are smaller than asbestos. So why would you use a surgical mask to protect yourself from airborne particles that are smaller than asbestos? You would not use these masks to protect you from asbestos. No science, just lies. Scott Morrison and Greg Hunt had no authority to waste the massive amounts of money to purchase ineffective vaccines that caused damage and not protection. One of my work colleagues died, and  is still suffering the effects of the Pfizer vaccine. Another work colleague of mine experienced heart palpitations but never got it checked. His girlfriend was officially diagnosed with myocarditis. Yes she took Pfizer! Doctor tried to say it was from her previous  condition? How dumb do these doctors think we are. These doctors are criminals too!

3. The lock-downs were destructive for business, the economy and the public moral as a whole. It was illegitimate, dictatorial mandates from power hungry maniacs who put all these tyrannical rules in place which did nothing but destroy the fabric of our society. These measures put in place by all governments increased suicides. Go look up the data. The two tiered rules in relation to "essential" and "non-essential" workers was absolute garbage. No ones job is "non-essential". And Police and Politicians are definitely not "essential". And the rules around smaller businesses not being allowed to operate but Woolworths, Coles and Bunnings being allowed to still trade was criminal! Not being allowed to travel more than 5 kilometres "without permission" or get a \$5000 fine? Being harassed and abused by police, children and elderly being pepper sprayed, shot with rubber bullets? These are the actions of dictatorships and  regimes not democratically elected Governments in the Western World! Or do we actually live in a covert  state? Vaccine passports to gain entry to businesses was criminal. Is it still not illegal to disclose a persons medical status? So why was it ok, and "mandatory" for strangers to know my medical status during this period!

4. The commonwealth government had no right to close the borders and to not allow citizens to return. This was criminal.

5, 6. If government did not implement these ridiculous rules supports such as job keeper etc would not have been required. These actions of money printing by the Government and the RBA to feign supporting the Australian Public, small businesses and the economy is what caused the inflation we are experiencing now. These financial supports were not required if the government did not force businesses to close their doors and dismiss their staff. The answer is clear, do not do this again. Do not for this tyranny on the Australian people again.

If you want evidence look at the New Zealand Health Department data where the Database Administrator  showed clear evidence that the vaccines kill. He is now arrested. You need to ask yourself why, and have your analysts which we pay for do the proper data analysis on the information you have collated over the last 3 years and you will find the same. NSW health data shows this as well. Overall cause mortality rates have risen after the rollout of the vaccines. How can it be, that the "flu" disappeared in 2020 and 2021?

The below screenshot is taken from the NSW Health Department document which can be found here:
<https://www.health.nsw.gov.au/Infectious/covid-19/Documents/respiratory-surveillance-20231021.pdf>

Look at how much deaths increased in 2021 and 2022 when the vaccines were rollout out, not in 2020 when the supposed "most virulent and deadly" strain of the "Covid-19 Virus" was going around. The data speaks for itself. Look at 2017! There were no lock-downs vaccine passports or mandatory vaccines or border closures then?

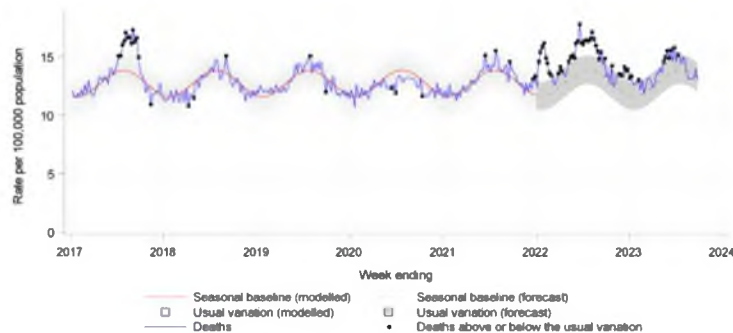

Death surveillance

All-cause mortality

All-cause mortality provides a comprehensive measure of total impact of health threats, such as severe influenza period, COVID-19 and heatwaves, by counting both deaths directly attributable and indirectly associated with the threat. Monitoring all-cause mortality allows rapid assessment of changing patterns of mortality, and whether the number of deaths in a period is more or less than expected. In this report mortality is determined from counts of deaths in the NSW Registry of Births Deaths & Marriages. The rate of death per week is presented with the seasonal baseline, which summarises the historic (2017-2021) rate of deaths for corresponding week (red dashed line, grey shading indicates the 95% confidence interval). This indicator provides a signal of the impact from any significant and prolonged cause on the NSW population.

Interpretation: Weekly lag adjusted all-cause mortality is within the usual variation.

Figure 4. All-cause death rate per 100,000 population, all ages, 2017 to 24 September 2023.

Notes:

In this report, due to the time interval between a death occurring and the date on which the death is registered, only deaths reported 4 weeks prior to the date of analysis are used. Deaths are lag adjusted for the weeks ending 20 August 2023 to 24 September 2023. For additional information see data sources and methods for details.

I raised concerns about how the government has behaved over the last two years in relation to health care. How people were forced to have vaccines. I raised concerns with people that I personally know that have had life threatening effects from these [redacted] injections. One [redacted] of mine passed away. He had a heart attack after the second injection. He went to [redacted] Hospital. Had another 4 consecutive heart attacks and was then in a coma for the rest of his life. I did not get a chance to say my goodbye to him whilst he was still alive because of the ridiculous rules put in place in hospitals. And still there are ridiculous rules where nurses and doctors are forced to wear masks, forced to keep updated with the deadly vaccines. For no good reason. There is no proof that masks stop the spread of anything There is no evidence to show that the vaccines "stop the spread"? There is no hermetic seal with a surgeon mask, therefore it does not stop micro particles at all.

Anyway, back to [redacted], god rest his soul. He did not want to take the jab, but because he was a casual at the company I work for, he knew that they would not put him back on, once Sydney opened back up with the restrictions of having to show a certificate in place. Another made up rule by politicians and bureaucrats. He told me his manager said, [redacted] Can you believe that this came out of a managers mouth? [redacted] intuition was right! But the decision he made, caused him to leave us too soon. We never went in a motobike ride together!

So, being in a coma for almost 4 months, his parents and partner had to deal with the decision of turning off his life support. So on the recommendations of the doctors! The same doctors who say the vaxx is safe and effective! His poor parents were advised to turn his life support off. He passed away [redacted] The Government took your life. What a decision to have to make. I bet no politician had to make this decision because they didn't get the real full dose of the jab [redacted]

Then I have [redacted] who I almost lost. The trauma [redacted] had to go through dealing with it is irreparable!

[redacted] Yet after the second death jab, he developed clots in the lungs 4 weeks after. He was coughing up blood at home! If [redacted] was not there, he would have done what most male men do and not do anything. We could have lost him! [redacted]

The family GP recommended to him that he take the Pfizer injection [redacted] to take the Astra Zeneca. [redacted] did not provide [redacted] with informed consent. The doctor here has neglected their duty of care as a health practitioner. He was admitted to [redacted] hospital. Scans revealed clotting [redacted] Then, to treat the clots, they put him on blood thinner tablets that are manufactured by Pfizer! Is this some sort of sick joke!? The lung specialist [redacted] at [redacted] Hospital does not know what caused the clot, in spite of his pre-existing condition! She didn't report it as a possible link to the deadly vaccine jab! I went with [redacted] to see the GP [redacted] 2 weeks after for a follow up after being released from [redacted] Hospital. I knew [redacted] would not speak up. I sent an email [redacted] advising that I would be attending. [redacted] did not turn up that day, instead [redacted] to see dad. I recorded the whole conversation if you want proof. He asked me why I wasn't wearing a mask in the surgery. I told him I do not have to as it does not protect me from anything and that if he does not like it he can call the police.

Due to the damage done by the blood clots [redacted] he has reduced lung capacity. At the time there were the stupid mandates where the government was still "mandating" that masks still be worn. I asked Dr [redacted] to write dad an mask

exemption due to his reduced lung capacity. He refused! I asked him how could he not write [redacted] an exemption, seeing that his lungs are damaged due to the poor and misleading advice [redacted]? His response to [redacted] was "I don't want you to catch covid"??? [redacted] explained to him that he did find it hard to breathe just walking around with no mask let alone with one. He eventually agreed to write [redacted] an exemption.

Should it really be this hard if the doctor was following his oath in his duty of care to his patient to do no harm? I want to know what you think? This is the medical system the Australian Government and Bureaucrats have created. It has become a farce. It has been hijacked by these drug producing companies that leach off the medicare system. If all these so called professionals are getting paid from my hard earned tax dollars then I do not want to contribute to these glorified drug dealers any more! I want my taxes back.

This is another solution I offer to you. Give me my taxes back for unauthorized expenditure by politicians and bureaucrats who are in abuse of office which is treason. I then asked the doctor if he was going to report it as a possible adverse reaction? He said no and refused to do it for a good 10 minutes explaining that blood clots are not linked to the Pfizer lethal injection. I told him, we are not leaving until he does so.

Again, if he was looking after the best interests of his patient, why would he behave in this manner? Is it because the TGA and AHPRA sent threatening communications to GP's Australia wide advising that if they did not tow the Government lie they would be stripped of the license to practice medicine? Is he being coerced by a higher power?

What would drive this evil and malevolent behaviour?

[redacted] Something for you to contemplate.

He eventually did put the report in but I did notice that the form asked the question do you believe the issue was caused by the vaccine. I watch him change his answer from yes to no.

[redacted]
Needles to say my Father was advised that he would have to take these [redacted] pill indefinitely which was prescribed by Dr [redacted] the lung specialist at [redacted] Hospital. She also refused to report this as a possible adverse reaction to the [redacted] vaccination. [redacted]

Dr [redacted] advised my father he can stop taking the Pfizer drugs [redacted]. And sure enough [redacted] had to go to hospital again [redacted] for clotting in the lungs again. This time he went to [redacted] Hospital. This new lung specialist seemed interested in taking on [redacted] case and asked questions like "did the previous specialist [redacted] determine what cause the issue?". He seemed promising and might be a real doctor who would look into [redacted] condition and try to find out what the root cause is. I was curious myself and wanted to meet this doctor.

This doctor saw [redacted] swollen feet, did not recommend to do any scans or tests. Was not prepared for the consultation, he rang for reports from the hospital whilst we were in his office, listening to him over the phone. He had no facts with him from the blood tests taken when [redacted] was resubmitted to hospital. He prescribed [redacted] the same Pfizer anti-blood clot drugs, again! And said I will see you in 6 months? Is this how the medical system works?

The medical system needs a massive overhaul as to me it appears to be captured by the big drug companies.

Attached for your reference is the report from when my father was first admitted.
