

Dear Sir/Madam,

I am submitting this paper to you as a result of the complete madness that has occurred over these past 2-3 years. I am a retired woman of senior years and like to help in the community as a volunteer. My points below are areas I wish your Covid-19 Response Inquiry Panel to address so that the citizens of this country never again endure what we have been through.

### **Point 1:**

"Valid Consent" of the Australian Govt. Dept. of Health – Immunisation Handbook, and I quote:

### ***VALID CONSENT***

*Valid consent is the voluntary agreement by an individual to a proposed procedure, which is given after sufficient, appropriate and reliable information about the procedure, including the potential risks and benefits, has been conveyed to that individual.*

*As part of the consent procedure, people receiving vaccines and/or their parents or carers should be given sufficient information (preferably written) about the risks and benefits of each vaccine. This includes:*

- *what adverse events are possible*
- *how common they are*
- *what they should do about them*

### **Criteria for valid consent**

*For consent to be legally valid, the following elements must be present:*

1. *It must be given by a person with legal capacity, and of sufficient intellectual capacity to understand the implications of receiving a vaccine.*
2. ***It must be given voluntarily in the absence of undue pressure, coercion or manipulation.***
3. *It must cover the specific procedure that is to be performed.*
4. ***It can only be given after the potential risks and benefits of the relevant vaccine, the risks of not having it, and any alternative options have been explained to the person.***
5. ***The person must have the opportunity to seek more details or explanations about the vaccine or its administration.***

**Results:** The States and Territories MANDATED employees. I also quote what our Prime Minister Scott Morrison said on Friday 6<sup>th</sup> August 2021:

*"We do not have a mandatory vaccination policy in this country. We do not have that. We're not proposing to have that. That is not changing."*

The Federal Government stated this was NOT mandatory!! But they lied and people lost their jobs, they were locked out of society and families were torn apart.

**Solution:** The Immunisation Handbook already has the solution. Every person has the right to choose whether they have a medical procedure or not.

## **Point 2:**

### **PROVISIONAL APPROVAL ONLY**

The Australian Government Department of Health – TGA website states:

*All four COVID-19 vaccines which have been granted **provisional approval** in Australia - from Pfizer (Comirnaty), AstraZeneca (Vaxzevria), Moderna (Spikevax) and COVID-19 Vaccine Janssen are also recognised for incoming travellers.*

They also removed drugs readily available, like Ivermectin, so they could provisionally approve the “vaccines”. Interestingly they have now reinstated these drugs. So much deceit in all of the Govt actions.

**Results: Tens of thousands have died but the Government has denied any link. Not to mention the thousands who are now permanently injured with no compensation or support from this Government. This “vaccine” was rushed through. It was never “Safe and Effective”. The Govt lied to us.**

**Solution: Do the required testing and report HONEST results. Allow the use of drugs that have been available for decades. Support the Australians who have been harmed and provide financially with the allocated funding**

## **Point 3:**

### **APRHA**

The primary role of this Regulation Agency is to protect the public and set standards and policies that all registered health practitioners must meet.

This Agency gagged doctors by not allowing them to tell patients the truth. And then deregistered them if they followed their conscience. Ensuring patient safety is at the heart of the Hippocratic Oath: First, Do No Harm.

**Results: Doctors and medical staff have left, or been deregistered, and this has created a huge shortage of medical care across Australia. APRHA have left these deregistered doctors in limbo for years, unable to make a living. And their charges are sited as “Misconduct”.**

**Solution: Allow doctors to abide by their oath and bring integrity and truth back into APRHA and all Medical spheres.**

Yours sincerely
