

Covid-19 Response Enquiry

Submission by Michael and [REDACTED] Schultz – sent 15 December 2023

Governance

1. All governments in Australia were guilty of violating the Nuremburg Code which forbids mandated medical treatment. (see file Para 1 of the Nuremburg Code states the voluntary consent of the human subject is essential).
2. State Governments under each of their respective Constitutions brought communication chaos to the country. Victoria particularly led a brutal onslaught on civilians who chose to not be vaccinated by the mRNA vaccine. Such brutality was copied by other states and territories e.g. ACT Police used LRAD and Vic Police used rubber bullets).

Key Health Responses

3. TGA only gave provisional approval to use mRNA vaccines (see file Vaccinated v Unvaccinated incl [REDACTED] Covax and file Australian Government of health data file).
4. Alternative treatment of covid was not accepted by TGA (see file Vaccinated v Unvaccinated incl [REDACTED] Covax and file Department of Health Vic.).
5. State Health Departments did not bring unified regulations bringing death, illness, and confusion to residents (citizens and visitors) in Australia.

Broader health supports for people

5. Mandated vaccinations to comply were imposed and/or coerced on employers and organisations with penalties of non-compliance (see file Australian Government of health data).
6. Compulsory wearing of Masks proved ineffectual. (see file Australian Government of health data).

Support for industry and businesses

7. Small Business suffered financially, and owners suffered mentally, and are still suffering from the governments (state and federal) coerced mandated vaccine regulations and wearing of masks.

Future Responses

1. Do not use police to impose health laws.
2. Never again bring Australia into global shame by violating the Nuremburg Code and/or finding bureaucratic ways of getting around it.
3. Do not allow despots such as the then Premier of Victoria, and then other state premiers, to legislate and then embrace power to the detriment of citizens of Australia.

Summary

Covid proved through state regulations that we are not one Australia. The well-known argument put up by citizens and rejected by politicians and bureaucrats, is to remove State Governments to ensure country wide regulations and protocols.
