

Covid Shot Ultimatum

Scott Morrison said they, as in the federal government, were not forcing anyone to get the shot.

In 2021 teachers were losing their jobs because of the ultimatums and come 2022 when the omicron strain had arrived and mid 2022 when teachers were allowed back I lost my job in May 2022 from TOMAGO ALUMINIUM COMPANY (TAC).

TAC was enabled by the Morrison government as a private company to sack staff who chose not to have an untried, untested, not safe or effective shot. TAC was enabled by allowing the state premiers to enforce the ultimatums because under the constitution the federal government couldn't enforce them.

The national cabinet that was set up should have the minutes released to the public under FOI laws to show these premiers up for who they really are, drunk on their own power. Meanwhile Morrison did a [REDACTED] washing his hands of any wrong doing.

I had worked for TAC for 19 years and expecting to retire in the next six years, instead I'm unemployed as a 59 year old.

Who is going to give me compensation????

Just as an aside my mother, [REDACTED] didn't get the shot. She lived to nearly 91 and there were 3 outbreaks of covid in the nursing home where she was and she didn't catch it once. The lady that was in the same room as her caught it and two people across from her caught it.

Just [REDACTED] showed it's the jabbed that were catching and spreading it and the people who are dying from covid are jabbed not the unjabbed.

Is the government going to look into the excess death rate since 2021?

Young people are dying at a disproportionate rate since 2021.

So for a submission into the inquiry I would like to know how I can be sacked for refusing an experimental gene based therapy when I didn't work with children or in health care?

For another submission I would like to know why we have excess deaths since the covid "vaccines" rolled out? Or is there nothing to see here!
