

COVID 19 Inquiry Submission

By Julia Williams [REDACTED]

The short duration of time to get submissions in is [REDACTED] and unprofessional.

I request a proper Royal Commission for a proper investigation into [REDACTED] vaccine procurement and [REDACTED] mask mandates; lock downs; vaccine mandates, [REDACTED] in the media regarding the ability of vaccines to block transmission, vaccine injuries; media censorship, silencing of doctors, the role of AHPRA and ATAGI in censorship and [REDACTED] of doctors, and the poor treatment of victims of the unsafe COVID 'vaccinations'.

Broader Health & Social Supports

The mandates which stopped 'unvaccinated' people flying and travelling interstate were against Australian Freedom. I was born here and if I choose move within the Country between States then I have the right to do that, regardless of what my medical history is.

Wearing a mask was difficult to breath in.

The [REDACTED] by the media and Government, the gagging of Health Professionals that lead to the social assassination of the 'unvaccinated' or anyone who said anything against the safety of the COVID vaccinations was one of the most [REDACTED] experiences in my 40 odd years of life. People saying that 'unvaccinated' should be refused medical treatment and deserved to die was unfathomable.

The Government failing to support Dr [REDACTED] protein vaccination and throwing money behind the new mRNA vaccines is a failure on so many levels. Support Australian Business and Talent. If this vaccination was available I would have gotten it. But it has been and continues to be, blocked at every opportunity by the biased entity in charge of approving medicines.

Financial Support For Individuals

I lost my job because I refused the Covid "vaccination". Even though I worked in a centre with disabled people, I had no direct contact with them. The Government 'recommendation' didn't apply to me as the Bookkeeper. The company's decision to make it policy that everyone was to have the recommended COVID 'vaccinations' was discrimination and unacceptable. I lost most of my income because I didn't want to be a lab rat.

Key Health Response Measures

The lockdowns and restrictions of movement, even within Australia meant I couldn't visit family interstate and they couldn't come to me. Telling me what I can and can't do is an infringement on my freedom as an Australian.

The people that should have been restricted was foreigners trying to enter our country. People returning from overseas should have been quarantined.

I apologise if this is too rushed, but with such a tight deadline, you are making this process an [REDACTED] [REDACTED]. The COVID debacle makes me ashamed to be an Australian.

Regards

Julia Williams
