

A Royal Commission must occur to investigate crimes against humanity such as

- Illegal mandates
- Censorship of free speech
- Scaremongering
- Locking up people
- Elderly people restricted or forbidden to see their loved ones and died alone
- Isolating vulnerable people away from family and friends
- Implementing and forcing end of life medication
- Suppression of inexpensive and tested proven remedies
- Failure of government or health authorities to promote healthy practices
- Government acting on advice from WHO and WEF international corporations
- Misrepresentation of Covid Vaccine being safe and effective
- Silencing, oppression and shutting down doctors, scientist by APHRA and ATAGI
- Bullied and harassed to keep employment by the No Jab No Job

So much I can write but I have no time

Please, please by the grace of God as He sees all things and is in control “good will prevail over evil”

So stop killing humanity and destroying the beautiful Earth God has placed us into
