COVID-19 Response Inquiry Panel

via: <https://www.pmc.gov.au/covid-19-response-inquiry/consultation>

11 December 2023

To COVID-19 Response Inquiry Panel,

I am writing to request a full Royal Commission for a proper investigation into:

- Vaccine procurement and the parties who benefited financially from the deals,
- Vaccine contracts and their terms and conditions,
- Vaccine mandates with the proof that they would work and who made the decisions,
- Vaccine injuries, the tracking mechanisms and why the vaccine injuries compensation scheme was not updated to include the latest adverse reactions,
- Mask mandates and lockdowns with the proof that they would work and who made the decisions,
- Government misinformation in the media regarding the ability of vaccines to block infection and transmission along with denial of vaccine injuries and gaslighting of the injured,
- The AHPRA lack of due diligence on safety, their silence on undeniable harm of the vaccine and their action along with ATAGI to silence the Medical Profession,
- Who decided to do the opposite of the 2019 Australian Health Management Plan for Pandemic Influenza, which prophetically described why all of the actions the Government did take would not work and would cause hardship

The disruption to our lives was unwarranted and continues to this day. The actions of the Government led to an increased divide in our communities, pitting family member against family member, work colleague against work colleague, friend against friend, and stranger against stranger.

A Royal Commission will help to identify the parties involved and why these decisions were made, and allow us to better determine the right path forward should there be another pandemic or emergency in the future.

We cannot allow these actions to occur again. Australia is worse-off because of the decisions made during the COVID-19 pandemic response, and it is only by investigating and publishing the truth of what happened that we can learn from the mistakes and secure a better pandemic/emergency response for the future.

Thank you your consideration.
