

## **Commonwealth Government COVID-19 Response Inquiry Submission**

I am a woman, who lived alone in Melbourne's inner west, during the oppressive and now largely discredited, draconian response of the Andrews Labor government ("the Response"), to the COVID-19 pandemic. During that time, I was isolated and alienated, and became deeply depressed.

I acknowledge that many other States and Territories modelled the Response and that the Federal government was willing to allow them to them carte blanche, to behave in a manner more reminiscent of communist China, than the Australia known and loved by myself and my ancestors.

As the granddaughter of an ANZAC, I was incensed by the brutality of the Response and the trashing of individual human rights, freedoms and the great Australian way of life, for which my grandfather fought. Despite returning from WWI, there is no doubt in my mind, that the war claimed his life tragically early and left my infant mother without a father.

In mid-2022, I suffered a severe mental health event, which saw me flee Victoria for the relative safety of a quiet coastal hamlet in New South Wales. I left behind my home, three children, six grandchildren and friends. I subsequently spent six months undertaking trauma therapy, with a long and slow recovery to full mental health. Nonetheless, I still experience an extreme reaction to the sound of an overhead helicopter, so wonder whether anyone every truly recovers from such brutality.

I demand:

1. A Royal Commission for a full investigation into the manner in which all levels of Australian government responded to the alleged COVID-19 threat.
2. Justification for State governments, as members of a Federation, closing their borders.
3. Full exposure of corrupt vaccine acquisitions and secret contracts with vaccine manufacturers.
4. Justification for the illegal vaccine mandates.
5. Justification for official misinformation about vaccines being safe and effective, when in fact, they did not prevent transmission and have caused untold injury and death.
6. Full disclosure about the true number of vaccine injuries and excess deaths in Australia.
7. Justification for the silencing and persecution of doctors and other scientific experts.

8. Justification for the censorship of doctors by AHPRA and ATAGI.
9. An explanation as to why governments are still promoting unsafe and toxic COVID-19 vaccinations and boosters.
10. Compensation for the COVID-19 vaccine injured.

I live in hope that Australians will receive honest responses to demands of this type but actually expect nothing more than lip service.

Yours faithfully,

██████████
