

By June 2021, data from the US-based VAERS showed more people died from the Covid vaccination in the previous 6 months than the combined total of ALL the people who had died from EVERY vaccination in existence for the last 20 years. The same result was seen on the TGA DAEN, yet the government actively bullied and threatened doctors who spoke out while also coercing the general public to get vaccinated without warning them of the possibility of adverse reactions.

Additionally, frontline medical staff and highly skilled specialists had spoken out against using ventilators to treat covid patients, the government ignored them resulting in more deaths.

Use of the PCR test was a direct contributor to the exaggerated number of cases. Kary Mullis, the inventor of the PCR test, had explicitly stated that the PCR test was not designed to diagnose or test for infectious diseases and would lead to false positives, yet the government continued to mandate the use of it.

Documents obtained through the Freedom of Information Act show that back in March, 2021, the CDC and US government officials were aware that myocarditis and blood clotting were common adverse events associated with the mRNA vaccines. Given that the Australian government was in close contact with US officials during this time, it stands to reason that they would also have been aware of this fact, yet they continued to push the vaccine on an unsuspecting public. Even worse, they obscured, obstructed and twisted the truth in an effort to conceal the dangers.

Lockdowns did far more damage than any virus and were used in the most ludicrous situations. As an example, by March 2021, the coronavirus death toll for Queensland stood 7, 5 of whom were people in their 90s, and 2 in their 80s. This is a normal death rate for the elderly!!!! Yet, the Greater Brisbane area entered the second lockdown for the year and masks were compulsory for all of Queensland.

The government and health officials knew these masks did nothing to stop the spread as the coronavirus droplets were so small, they could easily pass through the weave of the masks, yet people were being fined for not wearing masks!

The government employed a culture of fear, cover-up and harassment to control, cow and coerce the public into submission. Businesses went bust. Jobs were lost. Lives were lost.

Two children [REDACTED] committed suicide in the very first Qld lockdown, as did a mother of another family and a father of yet another family. That's just 4 people I know of.

As for harm caused by this vaccine, I have one [REDACTED] years old) with myocarditis, one [REDACTED] years old) with blood clots and bleeding on the brain, and another [REDACTED] years old) unable to walk more than 50 metres without having to stop and catch his breath. I also have a [REDACTED] with rapid onset diabetes, and another with rapid onset arthritis since taking the vaccine. My neighbour regularly falls down and cannot get up, as does the man down the road. Another neighbour struggles with chronic diarrhoea. All of these issues started after they were injected with the experimental mRNA vaccine.

The government knew it was experimental. Even Greg Hunt said it was the largest vaccine trial the world had ever engaged in.

I call for an enquiry into the handling of the pandemic, specifically focussing on the government's knowledge of adverse reactions and censoring of truth.
