

## **SUBMISSION FOR THE COVID-19 INQUIRY.**

I believe the taskforce needs to open a Royal Commission into the handling of the entire Covid 19 debacle. This is now imperative given the discovered and proven truths about all of it from the lock-downs to the mandates to the vaccines, to the masks to people losing their jobs. Therefore I demand that the truth be allowed to be told by a R.C.

The people deserve to know about the vaccine acquisitions and secret contracts with vaccine manufacturers; and of course the obscene amount of money made by that.

The ludicrous, and sadly ongoing, total misinformation being spread by MSM... from Day 1...scaring populations world-wide into doing what the majority would never have done... from taking the various vaccines to wearing masks, both of which are now proven to be a health hazard. Have you actually seen the bacteria created on a mask from wearing one for 30 minutes only? If not perhaps you should investigate.

The disgusting results for a huge percentage of the population of earth from injuries acquired by the administration of dangerous vaccines. I personally know people who have died, people who are still injured and of course who will never again lead a healthy life given that myocarditis is not something that can be fixed, and that is just one side effect. The people with neurological impacts are in pain every day. Never mind the children and adults who now have mental health issues, particularly from the lock-downs and the insane isolation rules especially in Victoria. Someone needs to take responsibility for what has happened to such a huge percentage of the population of the world and that is individual governments because you were the ones who forced this entire debacle.

People lost jobs and thus lost their homes because of it and again accountability must be admitted and recompensed. The numbers of homeless is now catastrophic with families living in cars.

The silencing of medical staff.... And more importantly silencing of the truth.... Is akin to the Holocaust of WWII and of course many believe we are now in WWII with the same ridiculous rules and the same story that creates doubt and fear in the minds of people who are now completely brainwashed to think that governments speak the truth. Many doctors lost their licences and some were jailed for doing just that. How did we get to this place where lies win over truth?

APHRA should be disbanded for its heavy handedness over these issues. If the people who have been damaged by this organisation's decisions actually went to court, the cases would go on for years with their appalling methods of dealing with people who only spoke their truth.

How is it that people with umpteen degrees and world class reputations for the integrity of their body of work were suddenly annihilated by MSM? Luckily many are still out there with now proof that what they said in the first place was accurate information.

A Royal Commission on these issues could take years and my only concern is that the people heading that commission would be complicit in the misinformation. However since you asked for public opinion, you now have mine.

Thanking you,
