

Submission to the COVID-19 Response Inquiry

In writing this submission I rely on the "Presumed Right of Communication of Political Matters" espoused by the Australian High Court to be implied in our Constitution.

During the period over 2020 to 2021 Australia ceased to be a functioning liberal democracy and instead (defacto) became a package of seven Authoritarian feifdoms. Although this was conducted by primarily State governments, the Commonwealth Government was complicit in this break down of our federal democracy through the following:

- By providing Citizens private medical records contained in the Commonwealths vaccine registers, to the State Governments the Morrison Government facilitated the State Governments with the infrastructure to establish lockdowns and electronic passports. This was both an invasion of our medical privacy and a violation of our common law rights of free travel and association.
- Australia has ratified both ICESCR Article 6 and Universal Declaration of Human Rights Article 23, that guarantee a right to work. By facilitating the State Governments "no Jab - no work" regime the Commonwealth Government was complicit in the State Governments bullying and therefore complicit in their human rights violations.
- Furthermore, The Morrison Government failed to introduce anti-discrimination legislation to protect workers and so was complicit in the State Governments bullying and therefore complicit in their human rights violations.
- During this period the Morrison Government showed a utter lack of political leadership. This allowed many of the abuses of power by the State Governments.
- The Prime Minister secretly appointing himself to portfolios was a breakdown of Westminster responsible government and a separate inquiry into his actions in this regard needs to be called.
- By silencing discussion of Covid treatment options the Commonwealth limited itself to a narrow range of advisors Who got it wrong on the effectiveness of lockdowns, so that when the advisors failed they had nowhere to turn.

This Inquiry should result in the formation of a Royal Commission with wide scope and terms of reference to investigate the State and Commonwealth Governments and a separate investigation into the [REDACTED] Actions of Mr Morrison during his time as Secret Minister for everything.
