

My submission pertains to the following

- Governance including the role of the Commonwealth Government, responsibilities of state and territory governments, national governance mechanisms (such as National Cabinet, the National Coordination Mechanism and the Australian Health Protection Principal Committee) and advisory bodies supporting responses to COVID-19.
- Key health response measures (for example across COVID-19 vaccinations and treatments, key medical supplies such as personal protective equipment, quarantine facilities, and public health messaging).

I would like to know why the Covid – 19 vaccine(s) were approved and continues to be used despite significant evidence that they are dangerous and have done and continue to injure and kill people in Australia.

I'd also like to know who and when Australian Politicians both Federal and State and Health Officials both Federal and State will be charged and prosecuted for approving, at times mandating and continuing to advocate for the use of Covid-19 vaccines despite significant evidence that they are dangerous and have done, and continue to, injure and kill people in Australia.

I would like to know why the All Cause Mortality in Australia has increased in the last few years following the roll out of the Covid – 19 Vaccines and yet, no Australian Federal or State Politician or Federal or State Health official can explain the reason.

I have included as evidence to support my submission a document published by the Australian Medical Professional Society called "Too Many Dead".
