

## IT IS TIME TO EXIT THE WHO

It is time for Australia to exit the WHO. This is clearly a grab for power and authority over how people treat themselves if sick. What they did during the "fake covid plandemic" is disgusting and this must and will not happen again.

We the people strongly request a full and transparent Royal Commission to investigate the

- Vaccine procurement and secret vaccine contracts.
- Vaccine mandates.
- Vaccine injuries. Go to the Forest of the Fallen to see how many people have died or have had serious adverse reactions.
- Mask mandates and lockdowns.
- Government misinformation/disinformation in the media regards to the ability of the fake vaccines ability to block infection and transmission along with denying fake vaccine injuries and gaslighting of the injured. Go to the Forest of the Fallen and see for yourself the enormous numbers of those killed or maimed forever.
- With AHPRA, their lack of due diligence on safety, their silence on undeniable harm of the fake vaccine and their action along with ATAGI to silence the medical establishment.
- We the people have the right to know all of this as the government works for us and not the other way around. Too much governmental interference and being sold out to big pharma, big tech and all the other self- appointed corporations, who do not care what happens to humanity.
