

The internationally orchestrated , exactly following worldwide the [REDACTED],. Government response ignored our constitution 1900. The people are sovereign, not the parliament. The whole government protocol/narrative was and still is in parts anti-democratic. Acceptance of international or foreign authority, may it be WHO, WEF or anyone else is TREASON. Government LACK OR MISINFORMATION in respect to our rights namely the Biosecurity Act 2015 and Privacy Act 1988,, the dangerous nature of mRNA vaccines, false promises, available treatments with previously known highly effective anti-viral medications like Ivermectin and Oleandrinine. Government failed to inform the public in respect to the financial conflict of interest re Covid19 vaccines and those players in this world's greatest experiment on humans, personal hygiene and in medicine well proven measures to combat virus infections in general. It was total mind control over the people with repetitive false messages, quieting of voices of experts outside of government chosen ones. General threats and fear campaign, over-stepping authority in many respects. Forcing doctors to act contrary to the Hippocratic oath to do no harm. Doctors and other health workers were discredited and/or lost their licenses by medical associations and public media following the corrupt government narrative. Accepting the ant-democratic GREAT RESET [REDACTED] that uses the government protocol of Covid 19 response as a start to implement the narrative is treason against the sovereign people of Australia. The unlawful new laws and Acts, namely the Misinformation Act, are more proof of this corrupt government. This is not my saying but the conclusion of the Royal Commissions into the corruption of this government: "Intrinsically corrupted from the bottom to the top". Even the wearing of masks was not for protection, the lack of efficiency against viral infections is well documented in medical research literature. It's a well known part of psychological tactic for compliance. The use of radiation weapons against peaceful and Australian demonstrators, I know people how showed the burn marks, is a crime. All up, the response of government was, still is – consider the short time frame given for submission- anti democratic, anti our Constitution, immoral, unlawful and unethical.
