

1. Vaccine procurement and secret vaccine contracts..... Multi billion dollar deals given to drug companies and absolving them of any liability for any deaths or adverse effects resulting from the “vaccine”
2. Vaccine mandates A complete violation of human rights and freedoms. Causing untold harm to private individuals and businesses alike.
3. Vaccine injuries..... No enquiry into these deaths and a new medical term introduced instead, SADS, to cover up the real reason for these deaths
4. Mask mandates and lockdowns..... Caused severe stress and unnecessary misery to a significant percentage of the population. Was more harmful than the supposed virus, caused suicides, child and spouse abuse and a whole lot more. Figures can be produced to substantiate these facts. Public figures changing their views on the efficacy of masks, like Fauci after proper scientists had shown evidence that masks didn't work.
5. Government misinformation in the media regarding the ability of vaccines to block infection and transmission along with denial of vaccine injuries and gaslighting of the injured.....Media driven misinformation, causing millions to believe the lie and unnecessarily fear for their lives as the death rate was proven to be less than 0.1% Evidence from the health organisations themselves stating the “ vaccine” had never been tested for efficacy, but was sold to the public on the basis that it prevented infection. Real scientists silenced in favour of those with no medical qualifications whatsoever.
6. The AHPRA lack of due diligence on safety, their silence on undeniable harm of the vaccine and their action along with ATAGI to silence the Medical Profession. A complete disregard for safety when administering the “ vaccine” The vials were not correctly dated and came in large batches which then were divided into separate vials for individual use, all done by unqualified persons. The “vaccines” were also not transported or stored correctly. There is also evidence of batches being used after the use by date.

In short nothing but an exercise in control. Nothing to do with the public's safety. The government passed the buck to businesses to enforce their legislation, which was totally unlawful anyway. They then proceeded to say the “ vaccine” was not mandatory????? In order to get off the hook.

It's high time there was some accountability and a Royal commission is what is needed.
