

I would like to provide a submission but have trouble typing so cannot provide extensive details.
But I wish to be heard.

My entire life was thrown into chaos when my employer mandated the vaccine.
I decided I did not consent to being part of a medical experiment, using a vaccine which has since
been proven to have significant adverse events.
In addition, it has been proven to not prevent the illness.

I had to give up my career and find alternative work.
Which appears was for no reason since the vaccine is no longer mandated.
I was ridiculed by my employer and colleagues.
The impact on my family was huge.

My [REDACTED] were forced to take a vaccine to keep their jobs.
They had no choice as they are not as financially independent as I am.
My [REDACTED] cried while being vaccinated.
How is this choice. How is this informed consent.

My [REDACTED] suffered significant adverse events from the vaccine
At the age of [REDACTED] she developed [REDACTED] she never had before.
My partner has several family members that developed odd diseases, such as [REDACTED]

Mask mandates – how ridiculous.
The science says they don't work.
People with health issues who shouldn't wear them, do because of fear.
How inhumane.

Children wearing masks? Have we gone insane.

All this for a flu.
That has a 99.9% survival rate
The average age of death from COVID is higher than the average age of death.
What more do you need to know to see how criminal this is.
