

There is a multitude of evidence that shows masks do not work and it was available prior to Covid 19 and many peer reviewed studies that also show the same information post the pandemic. And many alternate points of view that were silenced that would have helped us navigate the situation at the time better without excess spending and cost to peoples lives due to vaccine injury.

We need a FULL Investigation NOW!

1. We demand a royal commission for a FULL investigation to the ENTIRE COVID 19 response.
2. We want the secret contracts that have exposed to the Australian population so that it is understood to all Australians what was signed by our bureaucrats whilst we were under our Bio security emergency!
3. Investigation into the illegal vaccine mandates
4. Official misinformation about vaccines blocking transmission which is now obviously false.
5. Investigation into many vaccine injuries that do not seem to be accounted for in the safety and efficacy data, and even without these extra stats the Covid 19 Vaccine is still the most lethal and highest side effects per 1000 people that Australia has seen.
6. Investigation into the silencing of Doctors and health professionals through AHPRA and ATAGI threatening people to be struck off the register if they spoke against the vaccine in their medical opinion for a particular patient breaking the hypocritic oath.
7. The shut down of travel for ALL Australian including Dual citizens effectively holding them prisoner when they wanted to return to their country of origin if they wanted to leave. NO Australian, especially a DUAL Citizen should need permission to leave for their other country of citizenship.
