

The government must do a PROPER investigation into everything Covid from 2020 until now, and the only way is a full ROYAL COMMISSION.

The PM Anthony Albanese promised he would conduct a Royal Commission, and he is not sticking to his promise. This is shameful.

These areas MUST be investigated:

- police brutality on people's right to protest the draconian measures of lockdowns, mandates etc
- early covid medical treatments that were not allowed (ivermectin, hydroxychloroquine etc) and shown to be very effective backed by scientific studies. These medications treated people effectively in many other countries
- why weren't doctors allowed to practice medicine freely?
- terrible treatment of covid patients in hospitals, especially the unvaccinated patients
- hospital protocols that harmed patients (like remdesivir and ventilators)
- the isolation of hospital patients from their families
- the isolation of nursing home patients from their families
- why didn't the government advise the people ways to stay healthy and boost their immune systems to help overcome covid?
- why isn't natural immunity to covid recognised?
- why aren't PCR and RAT tests discredited when they are not accurate?
- the hotel quarantine insanity
- the closing of state borders
- corrupt vaccine procurement and secret contracts
- lock downs, and especially the harsher lockdowns of certain council areas – very discriminatory!
- mask mandates – masks shown to be ineffective, confirmed by study from the Cochrane Collaboration in the UK
- ATAGI and TGA incompetence and/or corruption in analysing the vaccines, they didn't do their job properly
- the role of ATAGI and AHPRA in censorship and oppression of doctors and other medical and allied health staff
- the psychological impact of government draconian measures on people of Australia, especially the young
- the high rates of suicide as a result of draconian measures
- investigation into high number of sudden deaths? Why the increased yearly mortality numbers? Why the silence?

- why weren't autopsies done on all sudden deaths? Why are they still not being done?
- why aren't vaccines considered to be a valid reason for the cause of sudden deaths in young people? Fact - mortality jumped only when vaccines were introduced
- why was AHPRA cancelling doctors for speaking the truth?
- why were Australian people not given proper informed consent???
- why were people forced to get the vaccine to retain their jobs?
- why were the human rights and freedoms of the Aussie people trampled on?
- ALL previous state premiers to be investigated who enforced draconian covid measures upon their state
- previous PM Scott Morrison to be investigated, and the national cabinet investigated
- Brad Hazard to be investigated as well as Kerry Chant.
- vaccine mandates for employment (still in affect!). Vaccine mandates for the workforce DISCRIMINATE!
- official misinformation and censorship of valid, qualified professionals worldwide
- lies in the media regarding the ability of vaccines to block transmission
- media censorship of valid doctors/scientists warning of dangers of vaccines
- investigation into huge amounts of vaccine injuries and vaccine deaths
- silencing of doctors, nurses, scientists warning against rushed, new vaccines
- vaccine injured compensation scheme – not enough!
- the poor treatment and gaslighting of vaccine injured people, these poor people need to be helped and heard
- investigation into the throwing away of billions of dollars for people to stay home in lockdowns. This is causing the current inflation
- why were the businesses like McDonalds, KFC, liquor shops and brothels allowed to stay open when everything else was not?
- small business destruction due to covid draconian measures

Please do a proper ROYAL COMMISSION into the Covid-19 period in Australia.
