

Submission to the COVID-19 Response Inquiry

I am raising a number of issues to the enquiry that I consider requires investigation and accountability. Its disgusting that the public was given so little time to submit to the enquiry.

1. The South African court released the Pfizer contract for Covid vaccines.

To view the contract go to:

<https://healthjusticeinitiative.org.za/pandemic-transparency/>

If Australian contracts were similar (most likely), then our Australian health officials and lawyers who told politicians and the public that these vaccines were 'safe and effective' were lying to you and just it made up. The contract clearly states the 'efficacy' of the vaccine is unknown, the 'adverse events' are unknown and the 'long term effects' are unknown and the product may not be 'fit for purpose'.

And yet, us taxpayers are still funding these [REDACTED] health bureaucrats salaries and they are still pushing this false narrative despite the evidence of continuing excess deaths and declining birth rates.

We were deceived by these people, and we expect, as our representatives, that you immediately do something about it. Do your due diligence and do not allow an attempted coverup.

2. There are over 3500 published, peer reviewed papers that indicated the covid vaccines are not safe or effective. Please see this website for a list of over 1000 published papers :

drtrozzi.org

3. The politicians made vaccination mandatory while not making it mandatory for themselves. Now take the time to read the peer reviewed evidence of your actions. These are the injured and dead people who elect you and pay your salaries.

<https://community.covidvaccineinjuries.com/compilation-peer-reviewed-medical-papers-of-covid-vaccine-injuries/>

All Australians are waiting for an apology (at least those of us still alive).

We are also waiting for accountability for the [REDACTED] health bureaucrats and for legislation to prevent this from happening again.

4. Now that Pfizer has admitted that it's so called vaccines were never tested for prevention of transmissibility of Covid (that is it kept no one safe), then the [REDACTED] health bureaucrats and their [REDACTED] politician, clearly just made the safe and effective narrative up.

See:

<https://apple.news/A-6eMZizRZ2WVySnM3y0FQ>

There was NO science. It's been self-evident for at least a 2 YEARS. Your own health department weekly statistics demonstrate that it is the vaccinated catching Covid multiple times, going to hospitals and ICU's and dying when compared to the unvaccinated.

And yet these people continue to appear in the media pushing this faulty, dangerous product?

Other statistics also clearly demonstrate it's the vaccinated who are sick and dead from vaccine injuries.

Now confirmed by the product manufacturer. NO science on transmissibility.

All the mandates, coercion and bullying were and remain just a con and a punishment.

Mandates still existing in childcare and aged care are clearly ridiculous, demonstrate a lack of intelligence on behalf of politicians and are a punishment of the people who they regarded as 'crazy' (their words not mine).

The question is this enquiry and your [REDACTED] health bureaucrats now admit the LIES and accept accountability for the irreparable damage caused to individuals, families, businesses and society. [REDACTED] being fined by courts in the billions for misrepresenting etc have come clean. Will you?

They lied to the people who elected you to serve them. You have betrayed our trust. You need to get on your knees and seek their forgiveness as you resign immediately from parliament.

But before you do, you need to sack all the [REDACTED] health bureaucrats who also lied and mislead us, while taking their highly paid taxpayer funded salaries.

Surely history will correctly record the destruction you have caused. Will it also record your apology?

5.The actual science on Face masks

Actual science shows people who wear medical facemasks get micro plastics in their lungs and throughout their bodies via the blood.

Dangerous for children:

Masks get contaminated with bacteria and fungi:
