

Submission to the Commonwealth Government's COVID-19 Inquiry.

14th December 2023

To Whom It May Concern,

As far as I am concerned The Covid 19 'pandemic' has been the most traumatic experience I have ever been through in my [REDACTED] years of age. It is purely the handling of this situation that caused this trauma, not any disease process. My personal story that I presented at a local council meeting is below.

[REDACTED] I thought I had been through the wringer. Little did I know I was walking into a far bigger battle – a fight for my freedom and that of my family. 2 years on, my fear is not covid or [REDACTED] but rather the totalitarian overreach of government creating division and segregation in society.

I have lost lifelong friends, been ridiculed, ignored, verbally abused, discriminated against, censored, and made to feel like a criminal. My only crime, being guilty of doing my due diligence and researching before allowing my family to partake in a clinical trial. My prior nursing training gave me the tools to navigate the data and I saw,

- *Serious adverse events*
- *Gagging of health professionals*
- *Censorship of worldwide experts regarding vaccine safety and early treatments*

We chose NOT to partake as our risk/benefit ratio was unfavorable. Early unblinding of the Pfizer trial after only 2 months of safety data = NO LONG-TERM safety data. We were told safe and 95% effective. But this is well known to be a misleading figure. The FDA recommend using absolute risk reduction which in this case was only .84% and that was for the original strain!

<https://www.canadiancovidcarealliance.org/media-resources/the-pfizer-inoculations-for-covid-19-more-harm-than-good/>

I personally know three young men with myocarditis and a young nurse so seriously injured she is unable to return to work. Reactions are NOT SO RARE.

[REDACTED] spent the night in emergency with chest pain following his second Pfizer jab taken due to a university mandate. Last week my heart broke as I watched [REDACTED] take a shot he did not want as he had [REDACTED]

I have cried with and for many friends and family members since the mandates commenced. Many have suffered economic duress and career ruin OR been coerced into taking the jab.

We must stop this medical tyranny and return to simpler times where the premise was FIRST DO NO HARM. Life is for living. It can never be totally risk free but where there is risk, there must always be choice.

The number one way that I believe the federal government failed my family and, I was by failing to implement these bills to protect us from tyranny at a state level. COVID-19 Vaccination Status (Prevention of Discrimination) Bill 2022 and the Fair Work Amendment (Prohibiting COVID-19 Vaccine Discrimination) Bill 2023.

[COVID-19 Vaccination Status \(Prevention of Discrimination\) Bill 2022 and the Fair Work Amendment \(Prohibiting COVID-19 Vaccine Discrimination\) Bill 2023 – Parliament of Australia \(aph.gov.au\)](#)

This led to a myriad of conditions that affected my family and I. Firstly, my husband was coerced into taking a vaccine that he did not want, to keep his job. Co-incidentally he only tested positive after vaccination. My daughter and myself remained unvaccinated and have never tested positive. I would draw your attention to the substantial body of information readily available on the vaccine harms, despite best censorship efforts! This also affected mine and my daughters ability to work. I could not work as a carer, and she lost her job as a cashier. Not to mention the fact that we were locked out of a large proportion of society!

Then let us look at masking. This affected us profoundly and still does as my father is in aged care and was hospitalized quite during the last couple of years. My daughter was also forced to wear a mask on public transport most days and often at school too. This often-caused fatigue and headaches, and in my opinion was very unsafe and unsanitary! The fact that any kind of coercion and mandates for masks in any setting still exist is totally unscientific, useless, and downright dangerous. Please see these valuable resources for more information. The first link is to videos from Industrial hygienists in the US that successfully stopped masks mandates being legalized in the United States.

We were all adversely affected by lockdowns too. It was stressful and unhealthy to even have opportunities to exercise outdoors restricted! All commonsense intervention such as de-stress, exercise, sunshine, and healthy diet were omitted! Here are some papers on lockdown harms and ineffectiveness. I have been studying these since the beginning and sending several to government. See attached [REDACTED] report for issues on many things.

The following up on safety data was also problematic. Any other vaccine program would have been shut down in the past with less adverse reactions. The problems of reporting were also not factored properly:

<https://news.rebekahbarnett.com.au/p/west-australian-government-finally>

Finally, I would like to mention conflicts of interest. Jane Halton should never have been appointed by the government to review Australia's procurement of the covid gene-vaccines and treatment as she is the long-term chair of CEPI. I consider CEPI to be a vaccine marketing arm for the Bill and Melinda Gates foundation. "CEPI was founded in Davos by the governments of Norway and India, the Bill & Melinda Gates Foundation, Wellcome, and the World Economic Forum." (<https://cepi.net/about/whoweare/>)

In fact, I believe that we need an entire enquiry into conflicts of interest as they are at the essence of the problem as far as I am concerned. Please see this presentation for more information. [Fahrie Hassan: Covidgate — Conflicts of Interest \(worldcouncilforhealth.org\)](#)

<https://worldcouncilforhealth.org/justice>

I sincerely hope that Jane Halton is nowhere near this Inquiry as I believe she should not be considered independent!

To conclude, I would have to say my life is still turned upside down. Many of my days are taken up with searching for and disseminating the truth of what is really happening. There are many thousands of others doing the same, so I am certain that we will see truth and transparency eventually. May this enquiry help to make it sooner rather than later, so we can all get our lives back.

I implore everyone involved to conduct a very thorough enquiry and listen to ALL the experts, including those that have been smeared and placed into the 'misinformation, disinformation' box. Most of them are highly credentialed and were highly regarded, prior to 2019. That is not a coincidence!
