

I am (was) a Mental Health Nurse for over 30 years, sacked in November 2021 for not complying with the bioweapon injections. I knew that these were bioweapon shots before the rollout commenced in Australia because I was actively watching the COVID Plandemic news coming out of USA/Canada/UK months before the vaccine rollout commenced in Australia.

Prior to the Plandemic, I had been actively studying US Politics & psychological warfare for the previous 4 years. The fact is that there was more than enough evidence of vaccine injuries and deaths coming out of the USA/UK/Canada, to STOP the rollout BEFORE it commenced in Australia. But this blatant overseas evidence obvious to anyone paying attention - was wilfully ignored by our Australian Government/TGA/AHPRA.

The sheer level of incompetence cannot be excused as incompetence since these "leaders" all have Phd's. I can only conclude that this Plandemic is pre-meditated murder to depopulate the planet, orchestrated by the "Globalists" who have spent years perfecting this plan and employing "Useful Idiots" (ref: ██████████, ex-KGB "The 4 Stages of Ideological Subversion" <https://vigilantcitizen.com/latestnews/ex-kgb-explains-the-four-stages-of-ideological-subversion-its-all-happening-now-video/> ) in key positions through infiltration, exactly as ██████████ openly states here - <https://www.youtube.com/watch?v=uOuLQDRCexs> and as since raised in Parliament here <https://dailydeclaration.org.au/2022/03/31/alex-antic-world-economic-forum/> .

This is indeed a Military grade "Psy-op" that is being waged against the Australian people and all Global citizens. The Plandemic and the mass brainwashing / cognitive dissonance of the mass population must be looked at through the lense of military Psychological Operations and Biowarfare. The evidence pouring out of the internet is overwhelming.

The depopulation is not the only goal of these Globalists that are waging war against the global population.

Clearly the microscopy evidence of nanotech in the injections must be actively pursued and is in my opinion the larger threat to the future of our children and the human race as we know it. If we are complacent and do not take the evidence of nanotech in the vaccines seriously, then we are doomed. We simply must succeed in waking up the mass population and in winning the legal battle.

As ██████████, one of the last remaining survivors of the Holocaust said at the recent 75th Anniversary of the Nuremberg Code, "Unless all of us resist, never again is Now" - <https://worldfreedomalliance.org/au/news/vera-sharav-unless-all-of-us-resist-never-again-is-now-full-speech-nuremberg-august-20-2022/> .

And therein lays the problem. Until we fix the outcome of the Royal Commission into Institutional Child Abuse that excluded the institutions of the Politicians and the Judiciary of Australia – another example of breathtaking incompetence – then all future Royal Commissions will be a sham.

Until we fix our justice system, no future Royal Commissions will result in any actual resolution. And meanwhile, the perpetrators of this Plandemic will get off scott free. We need criminal prosecutions of the Australian leaders of our captured institutions, the perpetrators of this Plandemic here in Australia, and not just in the USA.

I was the first to state on social media that we are dealing with psychopaths and megalomaniacs. No-one had stated that this was pre-meditated murder before I did, and there was a lag of at least several weeks before those statements came back to me from overseas. Those were my words, before anyone else on social media came to the same conclusion..

I was also the first to state that the [REDACTED] I am both grateful and relieved that many others both in Australia and globally, including [REDACTED] have since completed indepth investigation and come to the same conclusions. This realisation is for me "The Shot Heard around the World", the great awakening that removed plausible deniability as we realised that all these highly educated "leaders" with Phd's could not possibly be this incredibly incompetent. [REDACTED] is entirely correct when he stated at an AMPS conference "the incompetence is breathtaking".

Until we realised that this was well orchestrated pre-meditated murder, there was confusion. But once we realised this was intentional, a genocide of the elders (elderly & over 50's), disabled, sick - initially via Astrazeneca, and a transition into the transhumanist agenda of Humanity 2.0 via the nano-technology in Pfizer and Moderna, then the confusion disappeared. The agenda for the NWO Great Reset is now clear, and Moderna is setting up a factory smack bang in Victoria – despite that it had never brought a single product to market prior, and no-one is paying any attention whatsoever to Moderna's funding by DARPA via MIT here <https://www.modernatx.com/about-us/leadership#noubar-afeyan> and that MIT only accepts the top 6% of applicants and is a major source of recruitment for the US DoD. Pfizer is intended to be a distraction, the scapegoat, so that no-one investigates Moderna properly.

Meanwhile, it is important to realise that Class Action Suits and Royal Commissions are a default modus operandi that they have already out maneuvered us with and therefore the only solution is criminal prosecutions akin to [REDACTED]

Enough is Enough. We will not stop. We will not tolerate another biased, sham Royal Commission where the perpetrators get off. We will not wait for or rely upon the outcome.

And to those of you that make the final decision - you are in a double bind. If you do not hold the Royal Commission, we have more time available to pursue criminal prosecutions without you. Or, you can hold the Royal Commission as a strategy to try to delay us.

We are working together with our colleagues in USA/UK/NZ/Canada to remove ALL of the perpetrators from positions of power, permanently.

We are and will continue to pursue criminal prosecutions globally, regardless of this Australian Government lead COVID inquiry.

Thankyou for listening.

I am extremely well educated on the entire "pandemic" as I have spent 4-6 hours per day researching all of the censored information about the COVID "pandemic" coming out of USA/UK/Canada BEFORE the vaccine rollout even commenced in Australia.

The COVID-19 injections were clearly mandated in breach of the Nuremberg Code. I was trained in the Nuremberg Code because it is fundamental to medical ethics and forms the entire basis of the Mental Health Act, to ensure that mentally ill patients rights to informed consent and least restrictive environment are upheld and respected. These are our fundamental human rights and my job is to protect and advocate for the rights of the mentally ill. There was obviously no informed consent ensured by the Australian Government by virtue of the media blackout on any information that contradicted or questioned their vaccine mandates and mantra of "safe and effective".

There was so much evidence literally pouring out of USA/UK/Canada that I was never ever going to accept taking these injections that I had already concluded were bioweapons BEFORE the vaccine rollout even commenced in Australia. The vaccine rollout should NEVER have commenced in Australia, there was already ample evidence and therefore I declined the "COVID-19 vaccines" on the basis that I had strong scientific and medical grounds for refusing as my conclusions were that these injections were the equivalent of pointing a gun at my head.

There was already an unprecedented number of vaccine injuries and deaths occurring overseas, that should have been enough to stop the vaccine rollout in Australia. That the vaccine rollout then proceeded in Australia was either negligence or a criminal act, and I conclude that at a minimum, the Australian Government is complicit with Crimes Against Humanity - a global depopulation and implementation of the [REDACTED] driven "Decade of Vaccines" and the World Economic Forum agenda for the "Great Reset" as publicly announced and written about by [REDACTED]. On this basis I declined the COVID-19 "vaccines".

Unsurprisingly, the all-cause mortality stats coming out of Australia, USA, UK, Canada and NZ all show an unprecedented number of deaths coinciding with the "vaccine" rollouts. For example, the UK top reason for death is now listed as "Unknown causes". Australia has a 17% increase in all cause mortality in the first half of 2022. Yet still the Australian Government and media are engaged in a cover up, denying an association between the all-cause mortality stats and the vaccine rollout, and now news articles positioning for plausible deniability – "oops!".

Under the guise of the EUA for which there was no basis other than a PCR testing pandemic – and there is a Peer Reviewed document attached showing that the PCR test is unfit for purpose therefore all of the case numbers were exaggerated to create the illusion of a pandemic – and therefore our fundamental human rights, medical ethics and scientific standards have been entirely disregarded

ON PURPOSE, and on this basis I refused the COVID-19 "vaccines". I also knew damn well my employer and the Australian Government were NEVER going to co-operate with ANY requests for Risk Assessments etc. and that NONE had ever been conducted.

In summary, the Australian Government driven and employer mandates to take the COVID-19 vaccines under threat of losing my career and my income, are clearly in breach of our fundamental and well established human rights under the Nuremberg Code. The mandates are clearly coercive and intentionally prevented informed consent of the Australian public. I have felt and continue to feel personally under threat, and due to the extensive scientific and medical research I have read, and the warnings pouring out of the USA/UK/Canada directly from medical and legal specialists (inc. numerous well respected Professors/Assoc Prof/Phd's) in the fields of Virology, Immunology, Patents, and Biowarfare, my conclusion is that the evidence is overwhelming that our health system has been weaponised, and the Australian Government and my employer Latrobe Regional Hospital were/are effectively holding a gun at my head. To be forced to take any of the COVID-19 vaccines is an enormous threat to my physical safety that I conclude is akin to playing Russian Roulette, with absolutely no guarantee the injections will not cause severe and disabling vaccine injuries and/or death. The statistical data coming out now proves my original position, as the sheer volume of vaccine injuries and deaths is unprecedented in the history of vaccines, in spite of their well established and demonstrated manipulation of the statistics.
