

**RE: Call for submissions and evidence to the COVID-19 Response Inquiry
- closing 15 December 2023**

- My name is [REDACTED]
- I have worked in healthcare all of my career.
- On [REDACTED] after 24 years of loyal and dedicated service I was sacked by the [REDACTED] Company that I work for, due to refusing to take the Covid 19 vaccination.
- My requests to my employer at the time via “legal notices “seeking the unanswered questions that I had surrounding the gene therapy treatment were simply ignored.
- I am still in perfect health and had intended to work to the age of 70 years old.
- My career has ended prematurely due to something outside of my control.
- Australia has lost a productive worker to a corrupt Government system and I withdraw all services until a free Australia reigns again.
- How does a third-party i.e. “chief health officer” enter into a private employment contract between my employer and myself forcing coercion and performance upon me to “keep my job” by accepting the Covid-19 gene therapy treatment.
- This is forcing of performance is slavery.
- What happened to my non-derogable right to life.

- Why are there conflicts of interest at the highest levels of government between the government and the pharmaceutical industry i.e. family ties.
- Why was there a conflict of methodology between the Commonwealth and each state with regards to the Covid-19 gene therapy treatment?
- When was Australia sold out from under the people?
- When was democracy destroyed in Australia whereby the government rules for its own agenda (the Global Elite Agenda) with no care for its constituents?
- When did Australia decide to fall in line with the agenda of the global elite?
- What happened to the genuine Australia where we went our own way rather just being told what to do and when to do it?
- Why were essential services like [REDACTED]
[REDACTED] Fast food chains allowed to remain open to poison Australians with chemical laced food where genuine farmers couldn't get workers to harvest crops to provide real food to Australians?
- When did Australia become so woke it's ridiculous?
- When did all levels of the permanent government of Australia which includes the legal system, the education system, the political system, the military system, the health system, media system etc become so corrupt and compromised that at every level there is pure acquiescence.
- Why are all of my friends and associates telling me that they just don't feel right anymore after having received a number of doses of gene therapy treatment?
- Why did the Australian government want to inject this gene therapy treatment into every Australian up to 5 times to make sure after the previous four doses were in-effective?

- The survival statistics from Covid 19 is 99.8% Why was Covid 19 dramatised to the level that every Australian felt the fear of death within them if they didn't get the shot?
- Why didn't Australia generate our own computer modelling rather than rely on the distorted data from the NHS?
- Why is the government so [REDACTED] on keeping the true data hidden regarding the real statistics of the Covid 19 gene therapy treatment as recently released by a whistleblower in New Zealand.
- When Covid 19 begun why did the Australian mainstream media only allow and portray one side of the argument and anyone with a alternative point of view was vilified and dismissed.
- I could go on and on with questions but I already know the answers to all of my questions meaning that nothing will change because the whole truth and nothing but the truth will never be allowed to be released to the general public.
- Until the permanent government of Australia is completely replaced at all levels there will be no true democracy.
- Politicians may come and go but it is the permanent Australian Government that is being controlled by the much larger "hidden hand" in the shadows that is moving the direction of Australia is to be taken to be in alignment with the World Economic Forum Agenda 2030 documents.
- Exit the WHO agenda now.

Regards

[REDACTED]
