

I strongly Request a Royal Commission for a proper investigation into the following:

Corrupt vaccine procurement and secret contracts- we were never privy to ingredients and their effect until it was too late. This was all forced into us to such extent that it has made people around me, and my family members so sick.

Mask mandates- these were originally proven not to work, yet still went through. As a person with [REDACTED] and [REDACTED] children who need to see my facial expressions and what I say, this was so difficult. As a teacher it was ridiculous! At some point we were told we colour remove them, but it was too late. The damage was done. The class out of control. The children scared and distressed. And my personal health suffering.

Lockdowns- a way so isolate us all. When these went into effect I had just given birth, and my family were not allowed to come and visit or help out. This led to additional Stress, fatigue, Health issues and depression.

Vaccine mandates- it meant I was unable to return back to work as a teacher. Loss of income. And my [REDACTED] had to go through with mandatory vaccinations against his wishes, even after emailing his employer and asking several drs for an exemption - which they were unable to grant based on losing their jobs for saying/ doing the wrong thing.

We spent thousands on detoxing protocols and trying to do all to help prepare the body for these discussing toxins which never worked like a proper vaccine from

The beginning, causing more harm
Then good in so many of the population.

Official misinformation and lies in the media regarding the ability of vaccines to block transmission- I lost countless friends because they believed that as I was not vaccinated they would die if they hung out with me and I gave them covid. They believed I would die from Covid (I did not- they did worse than me being fully jabbed)
This led to all sorts of stress and health issues.

Vaccine injuries- it's real! Why did we not/ do we not hear about this in the main stream media. Everything was so one sided. I had friends get so ill after taking just one dose. My [REDACTED] was one of the lucky ones, with only hot cold flushed, head aches for days and Covid symptoms for three days just like
The actual virus.

Media censorship- every time I even shared something remotely on the other side to main stream media, I was Censored. Post deleted. Told I'd be blacklisted

and page deactivated. There was nothing on the news other than one sided story that was all fear based and pointing the finger at all who had another opinion. There is no equality or freedom of speech anymore.

Silencing of doctors- do many lost their jobs. Had to step down. As they were too afraid to speak out. And too afraid to jab people without them knowing the real risks. Too late did drs get a chance to share the real statistics and thoughts behind what was going on. So many just fell into the oblivion of injecting for \$

The appalling treatment of victims- told we would have our homes taken away, our jobs, our children's do our lives. So many people were victimised. We treated like shit because they chose not to take the jab Not to comply. Not to wear a mask.

I was told I could not teach. I could not work. I was putting those around me at risk. I would kill others by being unvaccinated. And now I see I am one of the healthier ones left amongst those people.
