Members of the Panel
Commonwealth Government COVID-19 Response Inquiry

Dear Panel Members

I write as a member of the public who has been very concerned at the governmental response to the COVID-19 pandemic over the past 3 years.

I strongly urge you to thoroughly investigate:

- the vaccine procurement contracts,
- official misinformation and lies in the media regarding the ability of the vaccines to block transmission,
- media censorship,
- the silencing of the medical fraternity,
- the role of AHPRA, ATAGI and the TGA in the assessment of and mandating of the vaccines.

Please conduct an unbiased, fair and truthful inquiry in order to restore the trust of citizens such as myself.

Yours sincerely
